

## Clarification

December 14, 2016

The Program Committee reexamined the options for 2017 spring ICT meets. Unfortunately, there are very limited options for competitions this spring.

The Albershausen Acro Cup in Alberhausen, Germany, April 20-23 is an option for the athletes currently on the ICT team (made the team at the 2016 USA Gymnastics Championships).

Athletes who make the ICT team at the 2017 Vegas Acro Cup may attend the IAG SportEvent in the Netherlands, May 25-28. We realize this is the same weekend as the Geneva International Acro Cup & World Cup where the national team athletes will be competing. We apologize for this conflict with two events on the same weekend, but this is the only competition on the international calendar prior to the USA Gymnastics Championships, when new national teams will be named.

Those ICT athletes currently on the ICT team (made the team at 2016 USA Gymnastics Championships) may choose to attend either the Germany meet or the Netherlands meet.
