Raj Bhavsar – Development Program Director (voice, no vote)

Members not present:

Cameron Bock – Athlete Rep

Non-members present:

Lisa Mendel – Men's Program Manager (voice, no vote)

I. 2025 Junior Exponential Bonus

The Junior D Score Bonus Working Group has finalized their proposal for the Exponential Bonus System (**Attachment A**) to be implemented for the junior division at the 2025 National Qualifier and 2025 US Championships. The intention of the bonus is to capture more athletes who are able to achieve the bonus, but the median bonus for each event would be considered internationally competitive based off international results from this year.

Motion: To approve the Junior Exponential Bonus System (Attachment A) to be used for the 2025 National Qualifier and 2025 US Championships.

Motion: Tom Meadows

Second: Randy Jepson

Passed 5-0 (1 absent)

The Senior Bonus System is almost final but is not yet ready for MPC approval.

II. US Championships Athlete Replacement

The MPC received notice that Divier Ramos will be unable to compete at the US Championships due to injury. Divier was one of the top four current Junior National Team members (FIG 18) from Day 1 All-Around results at Winter Cup, earning a spot to the Senior Day 1 at the US Championships. The MPC needed to determine if that spot would be filled by the next Junior National Team (FIG 18) athlete from Winter Cup results or if that spot would be added to the spots coming from the National Qualifier.

The intent of the US Championships [qualification procedures](#) was to qualify four FIG 18's from Winter Cup + two from Men's Development Nationals. In that regard, the MPC agreed that the next in line from Winter Cup should take Divier's place. Justin Park is the next ranked Junior National Team athlete from the Winter Cup Day 1 All-Around results.

Motion: To fill the vacated pre-qualified spot to the Senior Day 1 session at 2025 US Championships held by Divier Ramos with the next ranked eligible athlete, Justin Park.

Motion: Pavel Sargsyan

Second: Matt Henry

Passed 5-0 (1 absent)

III. NGJA Update

NGJA President, Jon Corbitt gave a brief update on several NGJA Workstreams that have been put together. Teams will be created with an overall focus on growth of the organization by enhancing processes, technology, and performance.

IV. Technical Sequences

A brief discussion was had about who should be involved in the review and updating of Technical Sequence routines for 2026. While the JNCS members were the primary creators of the current Technical Sequences, that advisory body is being eliminated following Development Nationals this year. The newly formed National Coaches Council (NCC) will include National Apparatus Leaders and Regional High Performance Leaders who should be involved in Technical Sequence review. Ultimately, the MPC felt that to ensure a smooth transition and not overcomplicate the process, there should be some JNCS and NCC overlap involved in the Technical Sequence updates for 2026.

Meeting adjourned at 2:11pm
