An eligible petition was submitted and reviewed by the committee. The committee reviewed the athlete's results from domestic competitions in 2025 and 2026 and compared them with those of the currently ranked athletes. The committee also considered the athlete's highest score potential from the previous year's official international assignments and current physical, training and

performance factors that may have inhibited peak performance. After evaluating all available competition results and the selection criteria, the committee determined that the petition did not provide sufficient basis to alter the current rankings.
