The Athlete Selection Committee (ASC) met on February 23 and February 25, 2024, to determine the athlete assignments for the 2024 Baku World Cup, 2024 DTB Pokal, the 2024 International Gymnix for juniors.

Prior to the 2024 Winter Cup, club coaches were asked to inform the HPLT which 2024 spring assignments the athletes were interested in vying for. The survey results determined the pool of athletes for each assignment. Athletes may accept or decline assignments.

The Athlete Selection Committee discussed the team needs and medal potential for each assignment, as well as the composite strength of the teams for the Mixed Cup at DTB Pokal and the junior team for International Gymnix.

The top four senior All-Around finishers from the 2024 Winter Cup were not vying for the spring assignments.

1. International Gymnix selection for juniors is based on Winter Cup performance, team needs, and medal potential.
  2. The 2024 DTB Pokal Mixed Cup selection is based on Winter Cup Performance, medal potential, and the overall make-up of the DTB Pokal Mixed Cup team, which is not an all-around competition.
  3. The 2024 Baku World Cup selection is based on Winter Cup performance. The highest-ranking National Team athlete on uneven bars and the highest-ranking National Team athlete on floor exercise were selected based on their World Cup medal potential.
