GENERAL/JUDGES

CHAPTER 1: GENERAL

I. XCEL PROGRAM

The USA Gymnastics Xcel program was developed as an alternative competitive program offering individual flexibility to coaches and gymnasts. The goal of Xcel is to provide gymnasts of varying abilities and commitment levels the opportunity for a rewarding gymnastics experience. The program allows a wide choice in skills to meet requirements so selection may be based on an individual athlete's strengths.

The focus of the Xcel program is sportsmanship, leadership, teamwork, and fun. The emphasis in the Xcel program is on correct technique, form, and performance.

Xcel consists of 6 Divisions – Bronze, Silver, Gold, Platinum, and Diamond, and Sapphire. Uneven Bars, Balance Beam and Floor Exercise have four (4) Special Requirements in each Division valued at 0.50 each. Special Requirements are fulfilled by Value Parts from the Xcel Code of Points. Additionally, each level has Value Part requirements.

A pilot program in Regions 3, 6, 7, and 8 will begin in the 2022-23 competitive year for a 6th Division called Sapphire. Competition rules for this pilot program are available on the USA Gymnastics website within the Xcel Program information. No information related to this Pilot program is published within the current edition of the Code of Points.

II. HIERARCHY OF INFORMATION FOR THE XCEL PROGRAM

- A. The Xcel Program rules are found in the official written and published Xcel Code of Points, as updated by the Xcel Committee minutes and the Women's Technical Committee minutes, as they apply to Xcel. Hereafter these committee minutes are referred to as "Updates".
- B. Xcel rules are also available in an electronic version of the Xcel Code of Points.
 - 1. The official written and published Xcel Code of Points/Updates has final authority if discrepancies occur between these two versions of the Xcel Code of Points.
 - 2. For technical issues which are not specifically addressed in this Xcel Code, refer to the Development Program Code of Points for clarification. If this procedure is followed at a competition, the Regional Xcel Committee Chair and the Regional Technical Committee Chair are to be notified that this situation occurred.
- C. In these documents, the written text takes precedence over accompanying pictures/illustrations.
- D. Please realize that every variation of an element cannot be written or depicted in these documents.
- E. There are many judging/coaching/study aids available. There are various judging/coaching/study aids available either published by USA Gymnastics or through other individuals within the industry. The Official written and published Xcel Code of Points takes precedence over any judging/coaching/study aids.

**Xcel Code of Points
GENERAL / JUDGES**

J. Principles for Leaps and Jumps with Split Angles

1. Each Division has a minimum split angle requirement for Value Part and Special Requirement credit.

MINIMUM SPLIT ANGLE REQUIREMENT						
	BRONZE	SILVER	GOLD	PLATINUM	DIAMOND	SAPPHIRE
BEAM	No split required	90°	120°	120°	155° 450°	180°
FLOOR	60°	90°	120°	155° 450°	155° 450°	180°

2. Leaps & Jumps below the Division's minimum split angle requirement

- a. **Bronze – Diamond:** Leaps & Jumps that are within 20° of a Division's split requirement may still receive Value Part and Special Requirement credit
 - 1) If the split angle is less than the Division's split requirement, an up to 0.20 deduction would be applied for insufficient split
 - 2) If the split angle is deficient by more than 20°, award lower Value Part credit or no Value Part credit. The element would not receive the applicable Special Requirement. Examples:
 - Beam - Gold Division (120° split requirement) – The gymnast performs a split leap (#2.201) with 100° of split
 - (i) Award Value Part credit of "A" (Receives "A" VP since it is within 20° of split requirement for Gold, but not to the level to receive a "B")
 - (ii) Award Special Requirement
 - (iii) Deduct up to 0.20 for insufficient split
 - Beam - Diamond Division (155° 450° split requirement) – the gymnast performs a split jump (#2.201) with 100°
 - (i) "B" value part credit is not awarded. An "A" Value Part could be awarded for a straight jump (#2.108)
 - (ii) The jump may not be used for Special Requirement of a leap/jump with 155° 450° split
 - b. **Sapphire:** Leaps & Jumps that are within 45° from the required split is allowed to still receive Value Part and Special Requirement credit but a deduction of up to 0.20 for insufficient split is applied.
3. To receive "B", "C" or "D" Value Part credit as listed in the Xcel Code of Points a leap/jump requiring a 180° split, must show a minimum of 135° split. However, split angle deductions are based on each Division's split requirement, not 180°.
 - a. Example: Beam - Diamond gymnast performs a switch leap on beam (#2.305 "C") with 450/155° split.
 - 1) The switch leap receives "C" Value part credit because the split was greater than 135°
 - 2) The deduction for insufficient split is not applied because the gymnast met the Diamond split requirement of 155° 450°
 - 3) The leap may be used toward Special Requirement credit
 - 4) If the above switch leap had a split of 135°, the leap would receive "C" Value Part credit with a deduction of up to 0.20 for insufficient split

III. ALLOWABLE VALUE PARTS AND DIFFICULTY RESTRICTIONS

- A. **Elements are Restricted based upon their Value as listed in the Xcel Code of Points** not based on the quality/amplitude of the performance. If a restricted element is performed (All Divisions):
 1. Deduct 0.50 from SV
 2. Do not award Value Part credit
 3. The element cannot be used to fulfill Special Requirements
 4. If the dismount is a restricted element, also deduct 0.30 from SV for no dismount and do not award Value Part or Special Requirement credit.
 5. All appropriate execution and amplitude deductions would be applied to all elements, whether or not they receive Value Part credit.

**Xcel Code of Points

II. EQUIPMENT FAILURE / REPETITION OF AN EXERCISE

- A. In situations where there is an equipment failure, either competitive apparatus, personal equipment (including broken or completely torn handgrips), or music failure, occurring through no fault of Gymnast or Coach, Gymnast may choose to:
- Stop immediately and request permission from Chief Judge to continue from the point of interruption/music failure. Once permission is granted:
 - Chief judge, in consultation with Meet Referee, decides at what point the exercise must resume. Judging will resume at the point of interruption or the series / combination when equipment failure occurred.
 - Permission granted, perform after reasonable amount of rest time from the point of interruption or the series/combination when equipment/music failure occurred.
 - No score would be given for the partial routine.
 - All deductions prior to the equipment/music failure will still be applied.
 - On floor exercise, continue to complete routine. At the completion of the routine:
 - Gymnast and Coach must decide whether to resume routine at the point of music failure or accept the score given.
 - Judges will not post score until that decision is made
 - No deduction taken for music failure, if the decision is to accept the score.
 - Equipment failure does not include: unfastening of bandages / handgrips, loss / partial loss of footwear, incorrect bar setting, or failure to tighten cables/T-handles on Bars and Beam.
- B. Flash/light from a camera is not a reason to repeat a routine.
- C. Examples of equipment failure include:
- Broken or completely torn handgrips
 - Music failure
 - The UB cable tension slips while an athlete is competing (AFTER the coach has tightened the tension prior to the start of the routine)
 - The BB end cap detaches while an athlete is in the process of a dismount (the end cap falling off during any other point in the athlete's routine would not be considered equipment failure)

III. INQUIRIES

Refer to the Rules & Policies Chapter 6 for further information, rules, and process for an inquiry.

- A. Coach is entitled to see the four (or two) scores of individual Gymnast.
- B. A Meet Referee may watch a video (if available) prior to the submission of an inquiry to determine if an inquiry should move forward. A video would follow the same criteria questions listed below.
- C. Coach has a question regarding an exercise during competition:
- Chief Judge / Meet Referee should advise Coach to submit Inquiry Form to officially receive information.
 - No casual conversation during competition between Coach and Judge regarding evaluation of an exercise.
- D. Inquiries are limited to questions regarding:
- Start Value
 - Neutral deductions
 - Falls
 - Unusual Occurrences
- E. Inquiries must be legibly written on official Inquiry Form by the Coach:

CHAPTER 2: GENERAL INFORMATION

I. GENERAL INFORMATION

A. Final Score: Determination for all Divisions

1. The gymnast has the right to perform two (2) Vaults. A total of three (3) attempts allowed (see supplemental approaches).
2. For ALL Divisions, the Vaults may be the same or different.
3. Each Vault is scored and averaged separately.
4. The better score is counted.

B. Supplemental Approaches: The gymnast is allowed three (3) attempts (running approaches) to successfully complete one or both Vaults.

1. A Balk: a running approach that results in a fall during the run, stopping mid-run, running off the runway, or making contact with the springboard or vault apparatus without coming to rest or support on top of the mat stack or vault table.
 - a. One balk is allowed in the three attempts without penalty. Any additional balk will be considered a Void vault.
2. Contact with Hand Placement Mat, Safety Zone Mat, Springboard and/or Mat Stack or Vault Table
 - a. If the gymnast runs over or touches the Hand Placement Mat, the Safety Zone Mat, or the springboard or runs into the front of the Mat Stack or Vault Table WITHOUT coming to rest or support on top of the Mat Stack or Vault Table, it is considered one of the three Vault approaches (a balk) but is NOT considered a Void Vault.
3. If the gymnast falls during her running approach to the vault, it is considered a balk and is counted as one of the three Vault approaches.
4. Performance of an Incorrect / Incomplete Vault = VOID
 - a. Vault #2 for Bronze Division: If the gymnast rebounds from the springboard and comes to rest or support on her hands on the top of the mat stack without passing through the vertical plane, it is considered a Void Vault. Example of Void Vault:
 - 1) Gymnast jumps from board to arrive in support on hands on top of mat, then either places her feet on the mat (or Table) or falls back onto board or runway.
 - 2) Refer to Unusual Judging Situations for an option to perform Bronze Vault 1B, instead of taking a zero score (Void) on Bronze Vault 2.
 - b. Silver, Gold, Platinum, and Diamond, and Sapphire Divisions: If the gymnast rebounds from the springboard and comes to rest or support on her hands but does not go over the Mat Stack or Vault Table to complete the vault, it is considered VOID. Examples of Void vault:
 - 1) Gymnast jumps from the board to arrive in support on her hands on the Mat Stack or Vault Table but fails to invert resulting in her stepping down onto the table or falling down onto the board or the floor.
 - 2) Gymnast's steps are off on the run, and she cannot slow down her horizontal speed and ends up in a "belly slide" on top of the Mat Stack or Vault Table.

C. Fourth Attempt is not allowed: Examples for determining final score.

Examples		
	Vault Attempts	Score
a.	Attempt #1: Gymnast runs and Balks. Attempt #2: Gymnast runs and Balks - Considered as first Vault with "0" (VOID). Attempt #3: Gymnast runs and completes a Vault.	Gymnast receives score for the one Vault performed.
b.	Attempt #1: Gymnast runs and completes first Vault Attempt #2: Gymnast runs and Balks. Attempt #3: Gymnast runs and completes second Vault.	Gymnast receives score of the higher scoring Vault.
c.	Attempt #1: Gymnast runs, rebounds from board, comes to support on top of Vault table or Mat Stack without going over Table and completing the Vault - Score of "0" (VOID) on first Vault. Attempt #2: Gymnast runs and Balks. Attempt #3: Gymnast runs and Balks - Considered as second Vault with a "0" (VOID) score.	Gymnast receives a final score of "0" (VOID). No Fourth Attempt is allowed.

D. Announcement of Intended Vault and Performance of the Wrong Vault:

1. Designate the Vault: Before beginning the approach, the gymnast or coach must announce the name of the vault or flash the Vault Number on the XCEL Vault Chart for the Specific Division.
 - a. ~~At meets below State Championships, the coach may announce the vault to be performed instead of flashing the number.~~
 - a. For Gold, Platinum, ~~and~~ Diamond, ~~and~~ Sapphire Divisions, the Vault Number must be visually displayed at any sanctioned competition utilizing a 4-judge panel. ~~announced or displayed at all State level and above competitions.~~
 - 1) Vault numbers may be displayed in various ways. Examples: score flashing unit, whiteboard, or chalk board.
 - b. ~~At all other competitions, the Vault name OR number may be audibly communicated to judges.~~
 - c. The Chief Judge will signal the gymnast to vault as soon as the intended vault has been flashed or announced by the coach.
 - 1) Different Vault: No Deduction for performing a Vault that is different than the Vault announced or displayed, provided it is a Vault allowed at the specific Division of the gymnast.
 - 2) Vault Performed Determines the SV: Not the Vault Number displayed or announced.
 - 3) Body Position: Demonstrated for the majority of the Vault will determine which Vault has been executed.
 - d. Performance of a Vault Without a Signal from the Chief Judge
 - 1) Use the following guidance based on how many judges see the vault:
 - If both judges see the vault: The vault is scored.
 - If only one judge sees the vault: Refer to General /Judges – 12 – Judge inadvertently misses the exercises for options.
 - If both judges do not see the vault: The gymnast has the opportunity to repeat this vault.
 - 2) ~~The Chief Judge applies a 0.50 penalty to the average of the next completed vault.~~
 - 3) ~~The penalty may or may not affect the final score.~~ Example:
 - Vault 1 - runs/vaults over table without being signaled to start
 - Vault 2 - completes a vault, scores 9.0, ~~receives penalty of -0.50 for score of 8.5~~
 - Vault 3 - completes a vault, scores 9.20, which will be her final score.

	If neither hand makes contact with the vault table or mat stack	If a one-arm vault is performed
Bronze (Vault Option 1)	(Vault 1b) 1.00 deduction for failure to contact mat with both hands	
Bronze (Vault Option 2)	3.00 deduction for failure to contact mat with both hands (performs a salto or touch with only one hand).	
Silver - Sapphire	The Vault is scored "0" (VOID)	Each judge applies a 1.00 deduction.

The Chief Judge takes the 1.00 deduction from the Average Score for the performance of a one-arm vault, if at least half of the vault panel saw that only one hand touched the vault table.

B. Bronze Division - Vault Option 2:

1. If a gymnast attempts Bronze Vault Option #2: Jump to Handstand - Fall to Flat Back, but performs an incomplete or incorrect vault:
 - a. instead of taking a 0 score (VOID) on Bronze Vault option #2
 - b. use that attempt as a VOID for Bronze Vault Option 1A (deduction of 4.50) and perform Vault 1B to achieve a Score.

Example
Vault Attempts
Gymnast designates intent to perform Vault Option 2 - Handspring onto Mat Stack - to finish in lying position on flat back and: Attempt #1: Gymnast runs and Bails. Attempt #2: Gymnast runs and jumps from board, arrives in 3/4 handstand, and comes back down onto board.- VOID Attempt #3: Gymnast jumps to support on hands but comes back down to squat stand on Mat Stack • Since there is no deduction for calling the wrong vault, gymnast is allowed to perform Part 2 of Bronze Vault Option # 1 (kick up to handstand-fall to flat back). Her maximum score would be 4.50. • If she does not continue to perform Vault 1-B, she will receive a zero "0" score for the event. • This choice to perform Vault 1B would be available to this gymnast in attempt #2 above.

- C. At all sanctioned meets, all VOID vaults should be unofficially scored, but not submitted, unless a video review is decisive in determining the vault was complete.**

III. SPECIAL REQUIREMENT CLARIFICATIONS

A. Clarifications applied to ALL Divisions

1. Skill preceded by a cast:
 - a. When a skill is preceded by a cast, both the cast and skill receive separate VP/skill credit.
 - 1) Exceptions:
 - These skills may not be used to fulfill the cast/clear support angle special requirement and receive one (1) "A" Value Part in ALL Divisions.
 - (i) Cast squat, stoop, or straddle on
 - (ii) Cast shoot through
 - (iii) Cast off to stand (An element for Bronze only).
 - A mount or dismount may not be used to fulfill the cast /clear support angle special requirement.
2. Cast/Clear Support Special Requirement Angle: Any cast/clear support element that is within 10° of the Division angle for Bronze-Diamond and 20° of the Sapphire requirement will receive VP and SR. Refer to Bars Chapter 3 Deductions for further information.
 - a. Casts: A 0.10 amplitude deduction is applied to any cast that does not meet the Division angle requirement.
 - b. Clear Support Element: Amplitude deduction and VP applied to the element performed as applicable within the Division.
 - c. By Division
 - 1) Bronze: Division does not have an angle requirement. The 0.10 amplitude deduction does not apply.
 - 2) Silver-Diamond: SR credit will be awarded for the cast/clear support angle within 10° of the Division's specified angle.
 - A deduction of 0.10 will be applied for amplitude of casts 1-10° below the requirement.
 - 11° or more below the requirement will not receive SR credit. The cast angle deduction will apply.
 - Clear support elements may receive amplitude deductions related to the specific element (for clear hips, other circles, etc.) as applicable within the Division.
 - 3) Sapphire: SR credit will be awarded for the cast/clear support angle within 20° of the Sapphire specified angle.
 - No deduction will be applied for 1-10° below the requirement and is considered meeting the Division angle requirement.
 - A deduction of 0.10 will be applied for amplitude of casts for 11-20° below the requirement.
 - Casts of 21° or more below the requirement will not receive SR credit. A deduction of 0.10 will be applied for Insufficient amplitude of Cast for the Angle Special Requirement.
 - Clear support elements may receive amplitude deductions related to the specific element (for clear hips, other circles, etc.) as applicable within the Division.
 - d. The Development Program (Dev DP) cast angle deductions will not be used in any Division.
3. Restricted Skills: Restricted skills receive a deduction of 0.50 each and do not receive VP or SR credit.
 - a. Elements are Restricted based upon their Value as listed in the Xcel Code of Points, not based on the quality/amplitude of the performance.
4. More than one Special Requirement may be fulfilled by one Skill/Value Part element, unless otherwise specified.

B. Clarifications applied to Specific Xcel Divisions

CLARIFICATION BY DIVISION	
Gold	1. SR #2/3: Two (2) 360° circling skills (not mount or dismount) must be one of the following: • Two (2) directly connected same circling elements (performed on either bar); or • Two (2) different circling elements connected or isolated (performed on either bar); or • Two (2) of the same circling element; one performed on low bar and one performed on high bar. a) Since SR 2/3 are listed together, a deduction of 0.50 is applied for each missing circle up to a maximum of 1.00 deduction. b) The same 360° circling skill, if performed more than one time, may only be used to fulfill SR #2 and #3 if they are directly connected OR with one performed on LB and one performed on HB. Two back hip circles on the same bar that are NOT directly connected would NOT fulfill the SR. c) Circle elements with the same element number (same element box) that are in a different direction are considered different for meeting SR 2/3. Example: Element #7.101 Front hip circle / Back hip circle. 2. No giants are allowed (LB or HB). 3. No release skills with a bar change are allowed.
Platinum	1. A long hang pullover is considered a 360° circling skill only if preceded by a cast. 2. Clear hip circle to handstand, back stalder to handstand and pike sole circle to handstand receive "B" VP credit (All without turn). 3. One (1) tap or underswing - counterswing is allowed for VP credit. Any others will incur an extra swing deduction- 0.30.
Diamond	1. The same minimum "B" 360° circling skill, if performed more than one time, may be used to fulfill SR #2 and #3 2. Any tap or underswing - counterswing will receive an extra swing deduction. 3. Two SRs may be fulfilled with one skill, unless stated otherwise. – Example - A cast to handstand with 1/2 (180°) turn fulfills SR #1 and #3. 4. Special Requirement #3: a. Release: Release can occur in the mount but not dismount. b. Turn: Turn CANNOT occur in either the mount or the dismount. A turn can also include a pirouette. c. Circling Skill: Same or Different from SR 2: Not the mount or the dismount

Xcel Code of Points
UNEVEN BARS

CLARIFICATION BY DIVISION (Continued)	
Sapphire	1. Special Requirement #3: a. Circling Skill 1) Different from SR#2: - A Clear hip circle on the low bar and a Clear hip circle on the high bar are NOT considered different skills for Special Requirement fulfillment, even if they have different exit or entrance. - Different circling skills have either a different number in the CoP, or are performed with a different degree of turn, or are performed on 1 or both arms. 2) Not the mount or the dismount. b. Release: Release can occur in the mount but not dismount. c. Turn: 1) Turn CANNOT occur in either the mount or the dismount. 2) A pirouette may fulfill the turn Special Requirement.

IV. DIFFICULTY RESTRICTIONS

A. Restricted Elements: Elements are Restricted based upon their Value as listed in the Xcel Code of Points not based on the quality/amplitude of the performance.

B. If a restricted element is performed: (All Divisions)

- Deduct 0.50 from SV
- Do not award Value Part credit
- The element cannot be used to fulfill Special Requirements
- All appropriate execution and amplitude deductions would be applied to all elements, whether or not they receive Value Part credit.

- C. Elements Considered the Same:** In the following instance, elements listed under the same number will be considered the same:
- If the elements finish with a different grip position.
 - If the elements are performed with legs together or separated (not to include saltos)

Examples of Elements Considered the Same for the Counting of VP	
Criteria	Example
If the elements finish with a different grip position.	#2.301 Cast handstand with ½ turn in handstand and Cast to handstand with ½ turn in handstand to L-grip are considered the same element. - Finishing in a different grip does <u>not</u> make an element different ((Unless listed as a different number in the code)
If the elements are performed with legs together or separated (not to include saltos)	#5.302 Giant circle forward with legs straddled with ½ turn and Giant circle forward with legs together and ½ turn are considered the same element. - Cast to handstand with legs together or cast to handstand with legs straddled are considered the same element. - A Glide kip with legs straddled or together are considered the same element

- D. If a swing forward or backward reaches the handstand phase (within 20° of vertical), it will be considered a separate element.** (i.e., Backward Giant, Forward Giant)
- E. Awarding VP Credit When a fall occurs while performing a Release Element Consider:**
- During the performance of a release, the gymnast grasps or touches the bar with one or two hands and then falls:
 - VP is awarded
 - Execution and amplitude errors are taken in addition to the fall.
 - SR will be fulfilled, if applicable.
 - During the performance of a release element, the gymnast's hand(s) never grasps or touches the bar:
 - Element is considered incomplete; therefore, VP credit is not awarded.
 - Execution and amplitude errors are taken in addition to the fall.
 - The element cannot be used to fulfill Special Requirements.
 - The gymnast may repeat the element. If performed successfully, VP credit is awarded, as well as SR credit, if applicable.
- F. Awarding VP credit when a fall occurs while performing dismount element:**
- If the gymnast lands on the hands and bottoms of the feet simultaneously, award VP credit and deduct **0.50** for the fall.
 - If the gymnast falls on the dismount without landing on the bottom of the feet first, Value Part credit is not awarded, and a **0.50** deduction is taken for missing the dismount SR.
 - Fall on a Salto dismount without landing on the bottom of the feet first for Gold, Platinum, Diamond, and Sapphire Divisions:
 - Do NOT award Value Part credit and deduct **0.50** for the Fall
 - If salto was initiated, do not take additional **0.30** for No dismount.
 - If salto was NOT initiated, deduct an additional **0.30** from Start Value for No Dismount.
- G. Required Technique for the Recognition of VPs**
- Evaluating angle of the body**
 - If there is a shoulder angle, look at the line from the shoulders through the mid-point of the lowest body part.
 - When there is no shoulder angle (such as the ending of a clear hip circle nearing handstand phase), look at the line from the hands through the mid-point of the lowest body part.
 - In the case of casts and back uprisers with straddled legs, the angle of completion is determined when the hips are extended and/or legs are joined.
 - If hips are extended, but the legs are not fully together at the peak of the cast or uprise, a deduction for leg separation is applied.
 - Casts/Skills finishing in clear support:** Refer to Bars Chapter 3: Deductions for further information related to angle deductions and value part credit for casts and skills ending in a clear support.
 - Angle Requirements: (Silver-Diamond: within 10° of the requirement will receive VP/SR credit / Sapphire: within 20° of the requirement will receive VP/SR credit)
 - Bronze: Cast, No angle requirement, hips must leave bar (not mount or dismount)
 - Silver: Cast to a minimum of 45° below horizontal (not mount or dismount)
 - Gold: Horizontal requirement - Skill finishing in a clear support at a minimum of horizontal (not in the mount or dismount)
 - Platinum: Above Horizontal requirement - Skill finishing in a clear support above horizontal (not in the mount or dismount)
 - Diamond: 45° from Vertical or Above requirement - Skill finishing in a clear support at a minimum of 45° from vertical (not in the mount or dismount)
 - Sapphire: Vertical - Skill finishing in a clear support at vertical (not in the mount or dismount)

Xcel Code of Points
UNEVEN BARS

- b. Amplitude Deduction: A 0.10 amplitude deduction applies to casts only. It does not apply to the amplitude of circling elements. For those elements judges would use the amplitude deductions applicable for each Division.
- 1) Silver-Diamond: Any cast/clear support element that is within 10° of the Division angle requirement will receive VP and SR credit.
 - Cast:
 - (i) A 0.10 deduction will be applied for amplitude for casts 1-10° below the cast/clear support requirement.
 - (ii) 11° or more below the requirement will not receive VP/SR; Apply the 0.10 angle deduction.
 - Clear support element:
 - (i) Clear support elements will receive any amplitude and Value Part deduction applied (as applicable to the Division) to the specific element performed only (as specified within the Amplitude section).
 - 2) Sapphire: Any cast/clear support element that is within 20° of the Division angle requirement will receive VP and SR credit.
 - Cast:
 - (i) No deduction is applied for 1-10° below the requirement.
 - (ii) A 0.10 deduction will be applied for amplitude for casts 11-20° below the requirement.
 - (iii) A 0.10 deduction will be applied for amplitude for casts 21° below the requirement.
 - Clear Support:
 - (i) Clear support elements will receive any amplitude and Value Part deduction applied to the specific element performed only (as specified within the Amplitude section).

c. Dev Cast Angle Deductions will NOT be used in any Division

Xcel Code of Points
UNEVEN BARS

d. Cast deductions do NOT apply at Xcel Platinum and Diamond when cast is followed by:

- 1) #2.205 HB facing LB swing down with change to cross grip and ½ turn in range of hang position - swing backward with flight over LB to hang on LB ("B")
- 2) #3.203 Underswing (toe-on) with ½ turn and flight over LB to hang on LB ("B")
- 3) #4.204 Long swing forward with ½ turn and flight over LB to hang on LB ("B")
- 4) #4.306 From HB -swing forward and Salto roll backward to hang ("Peach" Salto) or to clear straddle support ("C")
- (i) NOT allowed at Platinum Division

3. Counting Casts for VP Credit

- a. When a skill is preceded by a cast, both the cast and the skill receive separate VP credit.
 - 1) Exceptions: The following will count as one (1) "A" VP:
 - Cast squat, stoop, or straddle on – with or without jump to HB
 - Cast shoot through (Bronze, Silver, Gold)
 - Cast off to stand dismount (Bronze Only)

For elements listed within sections 4-7 below. The deductions listed are in addition to the 0.10 amplitude deduction applied to any cast/clear support element that does not meet the Division angle requirement.

4. Uprises to Handstand (#2.303)

- a. The uprise skill includes the tap swing forward to counter swing (or underswing to counterswing) to initiate the uprise.
- b. Back Uprise to handstand must be completed to within 20° of vertical to receive "C" VP credit. If the handstand finished within 11° to 20°, deduct 0.05. (Diamond/Sapphire Only)
- c. When an attempt at a Back Uprise to Handstand fails to finish within 20° of vertical and:
 - 1) The gymnast is able to create a closed shoulder angle, finishing in a clear support, recognize it as a Back Uprise to clear support (#2.203) and award "B" VP credit.
 - 2) If the Back Uprise to clear support (#2.203) is directly connected to a Group 3, 6 or 7 circling element, award one or two skills, to the benefit of the gymnast.
 - 3) If the body finishes in a clear support but below horizontal, an up to 0.20 deduction for insufficient amplitude would be applied.
 - 4) If, from the clear support, the gymnast pulls the hips to the high bar and performs either an immediate cast or a back hip circle followed by a cast, a 0.30 deduction is applied for an Extra Swing/Cast for the Platinum, and Diamond, and Sapphire Divisions.
 - 5) If the gymnast does not show a closed shoulder angle, (pulling the shoulders in over the high bar to a clear support) do not award VP credit, since there is no such element listed in the Xcel Code of Points.

5. Elements with Flight arriving in support (not in handstand) on the Low Bar (#2.205, 3.203, 3.303, 4.204, 4.304, & 5.303)

- a. The up to 0.20 insufficient amplitude deduction is used to evaluate the height of the release over the low bar, not necessarily the angle of arrival.
- b. Elements from a counterswing or forward giant swing on the HB, straddle (or pike) with flight backward over low bar to grasp LB:
 - 1) Proper technique is to catch LB in an extended body position from shoulders to hips; however, it is acceptable to maintain a pike in the hips.
- c. Underswing, clear hip circle or long swing elements on HB with ½ (180°) turn and flight over LB to grasp LB:
 - 1) Proper technique is to catch in an extended body position (shoulders to feet) at horizontal or above for no deduction for insufficient amplitude.
 - 2) Once both hands contact the LB, the element is considered complete and VP credit is awarded.

6. Elements with Flight arriving in Handstand on Low Bar

- a. The handstand position on low bar must finish within 20° of vertical to receive the higher VP credit. If the release element does not finish within 10° of vertical, but is within 20°, deduct 0.05.
- b. If it finishes at 21° or more from vertical, recognize it as the lower valued element.
 - 1) Example: a counterswing to straddle back to handstand on low bar ("C" - #2.305), but arrives at a 30° angle upon making hand contact on the low bar (award "B" for straddle back to grasp low bar (#2.205).
 - 2) No deduction for insufficient amplitude would be applied.

7. Circles to Handstand and Circles/Swings to Handstand

- (Circles: Clear Hip, Stalder, Pike Sole Circle, Clear Pike Sole Circle, Weiler Kip, etc.)
- a. If the handstand position is achieved within 20° of vertical, award the VP as listed in the Xcel Code of Points.
 - 1) 0° - 10° from vertical – No deduction (Restricted Skill at Gold)
 - 2) Deduct 0.05 if the handstand is between 11° to 20° of vertical (Diamond/Sapphire Divisions Only).
 - 3) No angle deduction in Platinum Division, when higher VP is a "C" because they can only receive credit for "B" VP Circles.
 - 4) Deduct 0.50 for a restricted element. Exceptions: Clear Hip to handstand, Stalder backward to handstand and Pike sole circle backward to handstand (All with no turn) are allowable "C"s."
 - b. If the angle achieved is between 21° - 45° of vertical, award the lower VP (if applicable) as listed in the Xcel Code of Points.
 - 1) No deduction for insufficient handstand angle would be applied.

- 2) Example: Gymnast performs a Clear Hip Circle backward, finishing at 45° from vertical. Award "B" VP credit for a Clear Hip Circle backward. No deduction for insufficient amplitude would be applied at any Division.
- c. If the circle finishes below 45° from vertical, award the same lower VP as in (b.) above (if applicable) and:
- 1) Deduct Up to 0.20 for insufficient amplitude:
 - A "rule of thumb" is to take the full 0.20 if the body is at 90° (Horizontal) or below.
 - 2) Exception: "B" Clear hip circle (#3,204): deduct Up to 0.40 for insufficient amplitude.
 - These deductions apply ONLY to **Platinum, and Diamond, and Sapphire** Divisions. Gold and **Platinum** Divisions have NO amplitude deductions for clear hip circles.
 - **0° - 10° from vertical - No deduction (Restricted Skill at Gold)**
 - **11° - 20° from vertical - 0.05 for Diamond Division ONLY (Restricted Skill at Gold)**
 - **21° - 45° from vertical - No deduction**
 - 46°- 89° from vertical - 0.05 - 0.25. Do not deduct for a restricted element in Gold Division.
 - at Horizontal (90°) - **0.30**
 - Below Horizontal - 0.35 - 0.40
 - 3) If the hips contact the bar, it is considered a back hip circle and receives "A" VP (#7.101). It will not meet the SR of a 360° "B" circling element for the Diamond Division.
 - 4) Circle or Circle/Swing elements that do not finish within 20° of vertical on the upswing are considered incomplete elements and no VP credit is awarded.
 - Any Circle element (Clear Hip, Stalder, Pike Sole Circle, etc.) that does not pass over the bar, but finishes short of 20° from vertical and falls off.
 - (i) No VP credit awarded + **0.50** for a fall.
8. **Circle/Swings: Backward (#4.202) and Forward Giants (#5.302)**
- a. The Backward/Forward Giant Circle must be completed to within 20° of vertical in order to receive the **B** VP credit as listed in the Xcel Code of Points.
 - 1) Even if the starting position is not in handstand, VP credit will be awarded, if the element is completed to within 20° of vertical.
 - 2) If the Backward giant circle does not reach 20° and falls = No VP credit awarded; deduct 0.50 for fall.
 - 3) If a Front Giant Circle is not completed to within 20° of vertical, no VP credit is awarded (a ¼ Front Giant circle is not listed as an element).
 - A ¼ front giant has a hop-grip change and continues with exercise = no VP credit awarded.
9. **Tap Swing or Underswing - Counterswings:** (Considered the same skill)
- a. Bronze Division: Gymnasts are not allowed to perform skills on the high bar.
 - b. Silver and Gold Divisions:
 - 1) Two (2) Tap swings or Underswing - Counterswings are allowed for "A" VP credit provided they are in different connections.
 - 2) A third Tap swing or Underswing - Counterswing would not receive VP credit
 - 3) All Tap swings or Underswing - Counterswings are subject to execution deductions.
 - 4) Do not deduct for an extra swing.
 - c. Platinum Division:
 - 1) One Tap swing or Underswing - Counterswing may be used for "A" VP credit.
 - 2) Any subsequent Tap swing or Underswing - Counterswings will receive an extra swing deduction of **0.30** with a maximum deduction of **0.50** for multiple extra swings following an element.
 - 3) All Tap swing or Underswing - Counterswings are subject to execution deductions.
 - d. Diamond/Sapphire Divisions:
 - 1) Tap swing or Underswing - Counterswing is not a VP at Diamond **and Sapphire** Divisions.
 - 2) All Tap swing or Underswing - Counterswings will receive an extra swing deduction of **0.30** with a maximum deduction of **0.50** for multiple extra swings following an element.
 - Exception: Tap swing – counterswing performed prior to salto forward dismount (front fly away) = no deduction for extra swing.
 - 3) All Tap swing or Underswing - Counterswings are subject to execution deductions.
10. **Cast, Uprises, and Circle Elements performed with ½ (180°) turn on the Upswing – to Descend on the Same Side of the bar**
- a. In order to receive the value as listed in the Xcel Code of Points, a Cast, Back uprise, or Circle element must first reach within 20° of vertical on the upswing.
 - b. The timing of the initiation of the turn is irrelevant as long as the long swing/circle is completed to within 20° of vertical.
 - c. If the element never swings/circles up into the handstand phase (within 20° of vertical), but still completes a ½ (180°) turn, the value will be based on the value of the root skill.
 - d. Depending upon the angle of completion of the turn, deductions for late completion may be appropriate.

Xcel Code of Points
UNEVEN BARS

- 1) When the catch occurs, the body should be in an extended position (from shoulders to feet) at horizontal or above for no deduction for insufficient amplitude.
 - 2) Once the hands contact the bar, the element is considered complete.
 - 3) See #4 regarding contacting the bar or mat with the feet.
6. **#3.207 Weiler Kip (B)**
- a. Ideally, the Weiler Kip should be performed in reverse grip (undergrip), starting from a near handstand position. It usually follows a front giant or a cast to handstand with hop-grip change. It should demonstrate the reverse circling pattern of a clear hip circle to handstand.
 - b. It is acceptable for the mid-to-lower thighs to touch the bar on the ascending phase of the circle. The Weiler Kip should not resemble a kip, cast handstand, which allows for the upper thighs, hips, and abdomen to contact the bar.
 - c. The inherent difficulty in performing the Weiler Kip is the "dropping in" phase from a handstand. If the element prior to the initiation of the Weiler Kip does not achieve handstand phase (within 20° of vertical), then that element will not receive the VP credit as listed in the Xcel Code of Points.
 - d. If the Weiler Kip does circle to within 20° of vertical, it is element #3.407-Weiler Kip to handstand and is only allowed at the Diamond and Sapphire Divisions.
7. **#6.204 Stalder Circle Backward and #7.209 Pike Sole Circle Backward (B's)**
- a. The "B" Stalder Circle Backward and Pike Sole Circle Backward to clear support do not require an open hip angle at the completion but should show an opening of the shoulder angle on the upward part of the circle.
 - 1) Consider the line from the shoulders to the hips, when evaluating the amplitude of the body. This is an exception to the principle for determining the angle by the line from the shoulders through hips and feet.
 - 2) #6.104 Clear Straddle Circle Backward to clear support is an "A" element and is described as a straddle seat circle to straddle "L" position, with no opening of the shoulder angle.
8. **Flyaway dismounts:** All flyaway dismounts must be initiated from the High Bar in order to receive VP credit.
9. **#8.001 Cast off with release of bar prior to arriving at stand (Bronze only):** The cast off should be done with straight arms and show a straight body position in the air before landing.
10. **#8.002 3/4 Forward Circle to Stand Dismount (Bronze only):** Two acceptable techniques. In both techniques, legs should remain straight throughout, and the feet should land behind the bar.
- a. ¾ forward circle without chin at the bar. Bend of the arms is acceptable.
 - b. ¾ forward circle slow and controlled rotation with a chin hang at the bar height to lower down to the mat. Chin should not rest on the bar. Bend of the arms is acceptable.
11. **#8.004 Stretched jump off forward to a stand (Bronze and Silver only):** The stretched jump forward may be done from a squat, straddle or stoop position on the low bar. The stretched jump forward should show enough height to maintain a stretched body position with straight legs and pointed feet.
12. **#8.008 ¾ Sole Circle Dismount LB (Silver Only):** From a squat, straddle or pike position on the LB, perform a ¾ sole circle backwards in a tuck, straddle or pike position around the bar to release to a stand on the mat. The cast squat, straddle, or pike on receives "A" VP and the ¾ sole circle release to stand on the mat dismount receives "A" VP.
13. **#8.009 ¾ Sole Circle Dismount HB (Gold and Platinum Only):** From a straddle or pike position on the HB, perform a ¾ sole circle backwards in a straddle or pike position around the bar to release to a stand on the mat. The cast straddle or pike on receives "A" VP and the ¾ sole circle release to stand on the mat dismount receives "A" VP.

3/4 Forward Circle to Stand Dismount (Bronze only)	
Landing Position	Deduction
Feet land behind the bar	No deduction
Feet land under the bar	0.10
Feet land in front of the bar	0.20

II. APPARATUS SPECIFICATIONS

Refer to the current USA Gymnastics Women's Rules and Policies book. Requirements are subject to change every competitive year, beginning August 1.

1. Measurement not based on length of upright, but actual distance from rail to floor, using a plumb line.
2. 0.30 deduction for competing on apparatus using incorrect specifications.
3. Chief Judge must take deduction from Average Score before next Gymnast begins.

B. Combinations of *Skill Cushions (maximum of 9 inches):

1. *Sting mats / *4-inch Throw mats / *8-inch Skill Cushions may be placed on top of allowable Competition Landing Mats (9 inches) in two separate areas (under Bars / Dismount area.)

3. 4-inch throw mat (Skill Cushion) placed on Competition Landing Mat(s) for Dismount purposes may have an up to 8-inch Skill Cushion placed on top for protection on a Release Element and must be removed immediately after release element performed.

Xcel Code of Points
UNEVEN BARS

4. An alternate skill cushion made of softer foam (Manufactured "Pit Pillow") is allowed at invitationals but is REQUIRED to be provided at Xcel State meet and above for the Diamond **and Sapphire** Division athletes who wish to use it when performing a "C" or higher release move. The mat must be a minimum of 4 ft. x 6 ft. and eight (8) inches. It may be used for bar releases ONLY (to be placed under the gymnast during the release and immediately removed). It is NOT allowed for dismounts or landing on any event.
5. Unauthorized type of matting will receive a deduction of 0.30 from Average Score by Chief Judge.
6. Conversions – Inches to Centimeters: Approx. ¼ inch = 2 cm.

Conversion of Inches to Centimeters (1 in. = 2.54 cm.)	
Inches	Centimeters
Approx. ¼ inch	2 cm.
4 inches	10 cm.
8 inches	20 cm.
9 inches	24 cm.

C. Matting Regulations for Mounts

1. Mounts without use of board / other mounting apparatus:
 - a. May stand on one (1) 12 cm / 20 cm mat or two (2) 12 cm Competition Landing Mats, with / without 1½ inch base mat (unfolded panel mat).
 - b. May stand on additional up to 8-inch of mats (Sting mats / 4-inch Throw mats / 8-inch Skill Cushions) placed on Competition Landing Mat(s).
2. Mounting Apparatus:
 - a. May be placed on one (1) 12 cm / 20 cm mat or two (2) 12 cm Competition Landing Mats, with / without 1½ inch base mat (unfolded panel mat). Panel mat be placed under / on top of Competition Landing Mat.
 - b. May be placed on top of Sting mat / 4-inch Throw mat that is placed on Competition Landing Mats.
 - c. Plywood not permitted underneath mounting apparatus.
 - d. For all Divisions, a Mount trainer/mount mat MAY be placed on an 8-inch skill cushion.
 - 1) A springboard may NOT be placed on an 8-inch skill cushion.
 - e. Must be removed as soon as possible after mount is completed.
 - 1) Chief Judge deducts 0.30 from Average Score, if mounting apparatus placed on unauthorized surface (e.g., 8-inch Skill Cushion / floor / plywood).
 - f. Mounting Apparatus – Exception for Bronze / Silver / Gold Divisions:
 - 1) Any combination of competition Landing Mats, Skill Cushions and Panel Mats may be used to facilitate the Mount on the low bar. **Spotting blocks may not be used to mount the high bar.**
 - 2) A Mount trainer/mount mat, folded panel mat or padded spotting/skill block may be placed on top of the Competition Landing Mats (CLMs) and skill cushions used for the purpose of mounting.
 - A springboard MAY be used on any combination of Competition Landing Mats, sting mats or 4-inch skill cushions (throw mat), but a springboard is NOT allowed directly on an 8-inch skill cushion.
 - Inflatable rebounding device cannot be used for mounting purposes.

Example
Mount with glide swing, then back hip pullover: May stand on panel mat / spotting block / mount mat / board placed on above specified matting to initiate jump into glide swing. Mat / Board must be removed as soon as possible after jump into glide swing.

D. Warm-up Regulations

1. Only one (1) Gymnast at a time allowed on Bars during any warm-up (general / open, timed or 30-second touch)

III. ATTIRE REGULATIONS

A. Hip or Heel Padding: Hip or heel padding is not allowed. The Chief Judge deducts 0.20 from the average score if hip/heel padding is used.

1. If the Chief Judge notices the heel/hip pads prior to the gymnast's mount, a warning must be given. However, if the gymnast wears the heel/hip pads during her exercise (whether or not the Chief Judge warned her previously), the deduction must be taken.

- B. Bandages, Hand/Wrist Guards, etc.** are allowed, but must be securely fastened. A broken or completely torn handgrip will be treated as equipment failure and the gymnast has the right to repeat the exercise or continue from the point of interruption.
1. Bandages, etc. that become loose or unfastened do not constitute equipment failure; therefore, no option to continue the exercise from point of interruption repetition of the exercise is allowed.
- C. Appropriate attire** for gymnasts is found in the Rules and Policies Chapter one, section two. The deduction for incorrect attire is 0.20, taken at the next event after the warning has been issued.

IV. TIMING REGULATIONS

A. Touch Warm-Up (When required by meet format)

1. The gymnast is allowed a 30-second touch warm-up time.
 - a. Setting of the bars and/or board is not included in the 30-second touch warm-up time.
 - b. A warning will be called with 10 seconds remaining. Time will be called at 30 seconds.
 - c. If the gymnast continues to warm-up after a warning is issued, the Chief Judge deducts 0.20 from the average score.
 - 1) Note: If the gymnast is preparing for a skill, allow her to complete the skill.
2. Immediately prior to performing the exercise, the gymnast may run and jump onto the board and briefly touch the bars without penalty.
 - a. The deduction for exceeding the warm-up time 0.20 would be taken by the Chief Judge only in the instance that the gymnast actually practices an element.

B. Timing of Fall

1. The gymnast is allowed 45 seconds to re-mount the bar after a fall.
2. If the gymnast does not re-mount within 45 seconds, the exercise is terminated.
 - a. The fall time begins when the gymnast stands back up on her feet.
 - 1) If an injury occurs, fall time begins after medical assessment is complete.
 - b. The 45-second fall period stops when the gymnast leaves the floor to re-mount in preparation to resume her routine
3. While off the apparatus following a fall and once the gymnast is standing on her feet, a warning will be communicated at:
 - a. The Timer gives notification of "20 seconds remaining" and "10 seconds remaining" in the Fall Time.
 - b. "Time" is called at 45 seconds.

V. BAR FALL REGULATIONS

- A. The gymnast may chalk up and adjust her grips** during the fall time, but she may not go outside of the competition area.
- B. During the fall, the coach may speak to the gymnast without penalty.** Once the gymnast remounts, the coach may not give verbal assistance without penalty.
- C. If the gymnast falls from the apparatus and does not re-mount** to finish the exercise with a dismount element:
1. Deduct 0.50 for the fall.
 2. Deduct 0.50 from the Start Value for the missing Dismount Special Requirement.
 3. Deduct 0.30 from the Start Value for No Dismount.
 4. Deduct for any other missing Special Requirements.
 5. Deduct for VPs missing, if applicable.
 6. A Courtesy Score of 4.0 may be awarded for an extremely short routine, due to injury or unusual circumstances. Common sense should prevail.
- D. After a fall, the gymnast is allowed to jump (or be lifted) to the low bar or high bar.**
1. In order to resume the routine after a fall, a coach may assist the gymnast onto the bar, regardless if the remounting skill was a value part listed in the Xcel Code of Points, with no deduction.
 2. Maximum of 2 pump swings to initiate momentum to resume the exercise without penalty.
 3. If more than two pump swings are taken, a 0.30 deduction would be applied to the third and to the fourth pump (extra) swing(s). (Applies to Platinum, and Diamond, and Sapphire only.)
 4. The maximum deduction for consecutive extra swings is 0.50.
 5. If the gymnast jumps or is lifted to the high bar, the coach may push the gymnast to initiate her swing without penalty.

Xcel Code of Points
UNEVEN BARS

- E. Judging Resumes:** After a fall from the bars, judging resumes with the first element/value part allowed and performed at their Division.
1. A coach may assist the gymnast onto the bar, regardless if the remounting skill was a value part listed in the *Xcel Code of Points*, with no deduction.
 2. **Example:** If, after a fall, a **Gold** gymnast re-mounts with a glide kip, then stops in a front support to crawl up to stand on the low bar, take 0.10 for lack of continuity.
- F. Cast Squat On fall backwards:** If, when executing a cast-squat on, the gymnast falls backward, but stays on the bars to continue with a glide kip, do **NOT** consider it a fall. Apply applicable execution deductions, such as bent arms/legs, touch of mat with feet, etc.

VI. SPOTTING REGULATIONS

- A. If the coach assists/spots the gymnast during an element:**
1. Each judge deducts 0.50 for the spot.
 2. If the gymnast falls after the spot, an additional 0.50 deduction is taken for the fall.
 3. No VP credit awarded.
 4. No SR credit awarded.
 5. No Bonus awarded (Sapphire).
 6. If the spot occurs on the dismount element, even though it receives no VP credit, do not deduct 0.30 from the Start Value for no dismount.
- B. If the coach spots the gymnast upon landing of the dismount:**
1. Each judge deducts 0.50 for the spot.
 2. If the gymnast falls after the spot, an additional 0.50 is taken for the fall.
 3. VP credit is awarded.
 4. SR credit is awarded.
 5. No Bonus awarded (Sapphire).
- C. If the coach inadvertently touches the gymnast without assisting:**
1. Each judge deducts 0.50 for the spot.
 2. VP credit is awarded.
 3. SR credit is awarded.
 4. No Bonus awarded (Sapphire).
- D. If the coach catches a falling gymnast,** do not deduct for the spot; deduct 0.50 for the fall ONLY.
- E. There is no penalty if the gymnast inadvertently touches the coach.**
- F. When a raised surface is necessary for spotting release moves:** It is recommended that a spotting block(s) or folded mat(s) be used; however, there is no penalty for the coach standing on the mounting apparatus, provided that the mounting apparatus (or spotting device(s)) is/are removed immediately after the release move is performed.
1. If the spotting device is not removed, the Chief Judge takes a deduction of 0.30 from the Average Score.
 2. The coach may not use chairs or other items that are not produced by a gymnastics supply company to stand on for spotting purposes.
 - a. A warning should be given. If the coach continues to use an inappropriate item to stand on, then a 0.30 deduction for use of unauthorized equipment should be taken.
- G. The coach may stand between the bars during the entire exercise without penalty.**
1. Clarification: At all USA Gymnastics sanctioned events, a spotting block or folded mat that is used for spotting purposes between the bars may remain in place as long as the coach continues to utilize it during the routine.
- H. There is no penalty for the coach leaning on or touching the bars while spotting** (without touching the gymnast).

VII. MOUNT AND DISMOUNT REGULATIONS

A. Mounts

1. See Bar Chapter 2, II. Apparatus Specifications for specific information on allowable matting for mounts.
2. The Board, Mount Trainer Mat or Panel Mat must be removed as soon as possible after the gymnast has mounted. An inflatable rebounding device cannot be used for mounting purposes.
3. Mount Attempts
 - a. The gymnast may have two attempts to mount the bars without penalty, provided that she has not touched the board and/or bars or run underneath the bars on either attempt. Such an attempt without mounting is considered a "balk."
 - b. If the gymnast balks two times, she may take one more approach; however, on the third attempt, each judge takes a 0.50 deduction.
 - c. A Fourth Approach is not permitted

Examples		
	Mount Attempts	Deduction
a.	Attempt #1: Runs, balks, no mount performed Attempt #2: Run, mount performed	No Deduction
b.	Attempt #1: Run, balk, no mount performed Attempt #2: Run, balk, no mount performed Attempt #3: Runs, performs a mount	Each judge deducts <u>0.50</u> for third approach.
c.	Attempt #1: Run, balk, no mount performed Attempt #2: Run, balk, no mount performed Attempt #3: Run, balk, no mount performed A fourth attempt is not allowed.	Each judge deducts <u>0.50</u> for third approach. A fourth attempt is not allowed, gymnast must climb onto UB to begin exercise.

- d. If the gymnast runs and touches the board and/or bars or runs underneath the bars without mounting, a 0.50 deduction is applied (considered a fall).
 - 1) It is acceptable for the gymnast to walk/run under the bar to mount with a jump to the high bar from between the bars.
- e. If, in the attempt to perform a Round-off entry mount, the gymnast performs only the Round-off, she may repeat the mount and receive appropriate VP credit. A 0.50 deduction for a fall will be applied, since contact was made with the board, which is considered part of the apparatus.
4. If the gymnast mounts the bars and realizes that the setting is incorrect, she may dismount the bars and has 45 seconds to re-adjust the bars. This is treated as a FALL from the apparatus and receives a deduction of 0.50.
5. Mounts that are preceded by one element prior to take-off from the board will be allowed.
 - a. Only the movements done after the feet leave the board will be evaluated.
 - b. If more than one element before the mount is performed, each judge takes a 0.20 deduction.
6. For Bronze, Silver and Gold Divisions:
 - a. The gymnast may perform a mount with one or two elements (two-part mount). The maximum number of elements allowed is two (2).
 - 1) If a third element is performed, the third element will not receive VP credit and will receive execution deductions.
 - 2) Clarification:
 - If a mount element is performed (as listed under Group 1 Mounts in the Table of Elements) then the athlete would receive SR credit for a mount (based on Division rules as applicable).
 - If two glides are performed (without foot touching between glides), it is considered one element.

Example
Acceptable two-part Mount
Element #1: Glide swing to stand
Element #2: Pullover

- b. If the gymnast performs a mount with two parts, she must maintain hand contact on the bar between the two parts.
 - 1) Example: Glide swing mount followed by a pullover or jump to clear support.
 - Failure to maintain hand contact will incur a 0.10 deduction for poor rhythm between the two parts of the mount.

Xcel Code of Points
UNEVEN BARS

B. Dismounts

1. Unless otherwise stated, dismounts may be performed from the Low Bar.
 - a. All Salto must be performed from the High Bar to receive VP credit.
2. All "A", "B", and "C" Flyaway Dismounts will retain their difficulty value regardless of starting position. Appropriate body position must be maintained in order to retain the VP credit, as listed in the Xcel Code of Points.
3. If a gymnast performs a dismount element from the Xcel Code of Points that does not meet Division criteria:
 - a. Deduct 0.50 for missing the Dismount Special Requirement.
 - b. ~~Do not deduct 0.30 for no dismount.~~
4. If the gymnast performs a Dismount element of No Value – one that is not listed the Xcel Code of Points or performs a restricted element for the Division:
 - a. Deduct 0.50 from the Start Value for missing the dismount SR.
 - b. ~~Deduct 0.30 from the Start Value for no dismount.~~
 - c. Deduct 0.50 from the Start Value if the dismount performed is a restricted element for the Division.
5. If the gymnast leaves the apparatus (terminates the exercise early, intentionally or due to a fall):
 - a. Deduct 0.50 from the Start Value for missing the dismount SR.
 - b. ~~Deduct 0.30 from the Start Value for no dismount.~~
 - c. Deduct 0.50 for the fall from the apparatus, with or without an actual fall onto the mat.
 - d. A Courtesy Score of 4.0 may be awarded for an extremely short routine due to injury or unusual circumstances. No routine will be awarded less than 4.0. Common sense should prevail.
6. Falls on a Salto Dismount (Gold / Platinum / Diamond / ~~Sapphire~~ Divisions):
 - a. If the gymnast never initiates the salto action, and falls without landing on the bottom of the feet first:
 - 1) No VP credit awarded for the dismount.
 - 2) Deduct for any missing value parts, if appropriate, from the Start Value.
 - 3) Deduct 0.50 from the Start Value for missing the dismount SR.
 - 4) ~~Deduct 0.30 from the Start Value for no dismount.~~
 - 5) Deduct 0.50 for the fall.
 - 6) Deduct for any other execution/amplitude errors.
 - b. If the gymnast initiates the salto action and falls without landing on the bottom of the feet first:
 - 1) No VP credit awarded for the dismount.
 - 2) Deduct for any missing value parts, if appropriate, from the Start Value.
 - 3) Deduct 0.50 from the Start Value for missing the dismount SR.
 - 4) Deduct 0.50 for the fall.
 - 5) Deduct for any other execution/amplitude errors.
7. Dismounts initiated from the feet are not allowed unless specifically listed in the Xcel Code of Points.

CHAPTER 3: DEDUCTIONS

I. COMPOSITION DEDUCTIONS

- A. Composition deductions are not applied in the Xcel Program.
- B. Emphasis is on the performance of allowable skills, not the routine construction.

II. THIRD RUN APPROACH (0.50)

III. GRASP APPARATUS TO AVOID A FALL (0.30)

IV. INTERMEDIATE (EXTRA) SWING

- A. **Definition:** The momentum of the element is stopped, and the gymnast must swing forward and backward to restart her routine.
- B. **Deduction:** This deduction is only applied at Platinum, Diamond, and ~~Sapphire~~ Divisions - 0.30
 1. The maximum deduction for more than one extra swing following an element is 0.50.
 2. If after an intermediate (extra) swing(s) is taken, the athlete jumps down from the bars, apply only the deduction of 0.50 for the fall.
 3. ~~When an extra cast/swing occurs only apply a 0.30 deduction for extra swing. Do not also apply the additional 0.10 amplitude deduction.~~

Xcel Code of Points
UNEVEN BARS

C. Successive (Multiple) Casts: before or after a skill/VP

1. Bronze, Silver and Gold Divisions: No extra swing deductions are taken.
 - a. Two casts are allowed for "A" VP credit, provided they are in different connections and meet the angle requirements to count as an "A".
 - b. A third cast would not receive VP credit.
 - c. All casts are subject to execution deductions.
 - d. Do not deduct for an extra swing.
 - e. An up to 0.10 deduction may possibly be applied for poor rhythm in connections.
2. Platinum, **and** Diamond, **and** Sapphire Divisions:
 - a. Each extra swing is a 0.30 deduction with a maximum deduction of 0.50 for multiple extra swings following an element.
 - b. **When an extra cast/swing occurs only apply a 0.30 deduction for extra swing. Do not apply the additional 0.10 amplitude deduction.**
 - c. If a gymnast performs an "A" or "B" cast that meets the Special Requirement amplitude for that Division but then returns to a front support, it still receives a 0.30 extra swing/cast deduction.
 - 1) Example: Platinum – cast above horizontal, cast squat on is an intermediate swing.

D. Tap Swing-Counterswing or Underswing - Counterswings: (Considered the same skill)

1. Emphasis:
 - a. Underswing: During the underswing, the emphasis is straight arms and legs and straight hollow body position and a neutral head. The completion of the underswing should show an open arm angle.
 - b. Counterswing: At the high point of the counterswing the chest should be hollow with a rounded hip angle body position. The head remains neutral, and the legs remain together.
 - c. Tap swing: The tap swing should show a slight arch at the bottom of the tap swing through vertical (under the bar) and kick legs forward-upward with the legs together with a good hollow body position on the forward swing.
 - d. Counterswing: At the high point of the counterswing the chest should be hollow with a rounded hip angle body position. The head remains neutral, and the legs remain together.

TAP SWING-COUNTERSWING OR UNDERSWING-COUNTERSWING			
All Tap swing - Counterswing or Underswing - Counterswing are subject to execution deductions.

Gold	Yes	Two (2) are allowed provided they are in different connections.	A third will not receive VP Credit Do not deduct for extra swing
Platinum	Yes	One (1) may be used for "A" VP credit.	Any subsequent Tap swing - Counterswing or Underswing - Counterswing will receive an extra swing deduction of <u>0.30</u> with a maximum deduction of <u>0.50</u> for multiple extra swings following an element.
Diamond	No, not a VP in Diamond	N/A - All Tap swing - Counterswing or Underswing - Counterswing will receive an extra swing deduction of <u>0.30</u> with a maximum deduction of <u>0.50</u> for multiple extra swings following an element.	
Sapphire	No, not a VP in Sapphire	This is not considered a VP in Sapphire and would receive an extra swing deduction with the following exception: If a tap swing or counterswing is inherently part of the entry into an element. (See examples)	
Diamond/Sapphire Examples

2. **Clear Support:**

- a. **Gold-Diamond:** Elements in clear support must be within 10° of the specified angle requirement for the respective Division to receive SR credit.
 - 1) ~~Clear support elements that are 1° – 10° below specified angle requirement will receive a 0.10 deduction for insufficient amplitude related to the Angle Special Requirement.~~
 - 2) ~~In addition, Any Amplitude deduction and Value Part would be applied to the specific element as applicable (as specified within the Amplitude section that follows).~~
- b. **Sapphire:** Elements in clear support must be within 20° of Vertical for Sapphire to receive SR credit.
 - 1) ~~No deduction for amplitude will be applied for 1-40° below the requirement.~~
 - 2) ~~Clear support elements that are 11° or more – 20° below vertical will receive a 0.10 deduction for insufficient amplitude related to the Angle Special Requirement.~~
 - 3) ~~In addition, Any Amplitude deduction and Value Part would be applied to the specific element as performed (as specified within the Amplitude charts that follow).~~

B. **Amplitude of flights to handstand on low bar (Applies to Diamond & Sapphire Divisions Only)**

Amplitude of Flights to Handstand on Low Bar (Applies to Diamond/Sapphire Divisions Only)		
Angle Requirement	Amplitude Deduction	Value Part

11° - 20° from vertical	0.05 amplitude deduction	Award higher VP
21° or more from vertical	No amplitude deduction	Award lower VP

C. **Amplitude of Circling Elements**

1. Amplitude deductions of circling elements are specified by clear hips and all other circling elements within the chart below.
2. **Clear Hip Circle (Only):**
 - a. Clear hip circles receive either "B" or "C" VP credit, depending upon the degree from vertical achieved once the hands shift to the top of the bar.
 - b. The following deductions for Insufficient Amplitude apply ONLY to Diamond, and Sapphire Divisions.
 - 1) Gold and Platinum Divisions have NO amplitude deductions for clear hip circles.
 - Platinum Division: The gymnast only receives "B" credit for any clear hip circle, regardless of whether it achieves handstand phase or not.

Amplitude of Circling Elements			
The deductions listed below are in addition to the 0.10 amplitude deduction applied to any cast/clear support element that does not meet the Division angle requirement.			
	Angle	Amplitude Deduction	Value Part
Circling Elements (excluding Clear Hip Circle)	0° - 10° from vertical	No amplitude deduction	Award higher VP
	11° - 20° from vertical	0.05 amplitude deduction*	Award higher VP
	21° - 45° from vertical	No amplitude deduction	Award lower VP
	More than 45° from vertical	Up to 0.20 amplitude deduction	Award lower VP
	*No angle deduction in Platinum Division, when higher VP is a "C", because they can only receive credit for "B" VP Circles. Deduct 0.50 for a "restricted" element. Exception: Clear Hip to Handstand.		
Clear Hip Circle (Diamond, & Sapphire ONLY)	0° - 10° from vertical	No amplitude deduction	Award "C" VP

	Below horizontal	0.35 - 0.40 amplitude deduction	Award "B" VP

D. **Amplitude of Body at Turn Completion**

1. For all elements that require a Turn in handstand phase:
 - a. The angle of completion is determined when the second hand re-grasps the bar. This applies to:
 - 1) All elements with a 180° turn (regardless of technique or grip)
 - Examples: Cast Handstand with ½ turn; Clear Hip Circle to Handstand with ½ turn
 - 2) Any element with 360° turn in handstand phase that is not performed on one arm (regular pirouettes; not using a Healy technique):
 - Example: Back giant on LB with 1/1 turn
2. For all Handstand elements with a 1/1 (360°) Turn AFTER handstand and all 1½ Pirouettes. This applies to:
 - a. All elements that include a 1/1 turn completed on one arm (after handstand phase) in the descent phase (Healy technique)
 - b. Any element with 1½ (540°) turn or more (using ANY turn technique)

Clarifications					
Clarifications applied to ALL Xcel Divisions					
Fall Time: 45 Seconds - The fall time begins when the gymnast is standing on her feet after the fall to the mat. If an injury occurs, fall time begins after the medical assessment is complete.					
SR#3: All Acro Skills/Series must start and finish on the beam to receive credit for SR#3.					
SR#4: If a restricted element is competed as the dismount, in addition to no SR#4 credit, also deduct 0.30 for No Dismount.					
Split Angle (within 20°/45°): SR and VP credit will be awarded for Cross or Side Split Leaps or Jumps that are within 20° (Silver-Diamond) or 45° (Sapphire) of the Division's specified Split angle. (See Beam Chapter 2, I Recognition of Value Parts) Deduction of up to 0.20 for Insufficient Split will be applied.					
Handstands: A hold is not required for any "A" VP handstand. Any "B" VP or higher handstand requires a 2 second hold if noted within the Table of Elements.

II. VALUE PART REQUIREMENTS

Value Part requirements for Xcel are provided in the following chart. Refer to the General/Judges Section for further clarification on value parts and deductions related to missing value parts.

Value Part Requirement					
Bronze	4 "A" VP	(0.10 each)	Platinum	6 "A" VP	(0.10 each)
Silver	5 "A" VP	(0.10 each)		1 "B" VP	(0.30 each)
Gold	6 "A" VP	(0.10 each)	Diamond	5 "A" VP	(0.10 each)
				2 "B" VP	(0.30 each)
			Sapphire	3 "A" VP	(0.10 each)
				3 "B" VP	(0.30 each)
				1 "C" VP	(0.50 each)

III. SPECIAL REQUIREMENT CLARIFICATIONS

A. Clarifications applied to ALL Divisions

1. All Acro Skills must start and finish on the beam to receive credit for SR#3.
 - a. Handstands:
 - 1) "A" VP Handstands and Headstands do not require a hold for any Division. Any "B" VP or higher handstand requires a 2-second hold if noted within the Table of Elements.
 - 2) Cross handstands with the same entrance & exit, regardless of angle achieved are considered the Same skill.
 - 3) Cross handstands and Side handstands are considered different elements for all Divisions.
 - 4) Vertical Handstands: Handstands that are within 10° of Vertical will receive SR credit and a 0.10 deduction applied for amplitude.
 - Clarification: The 0.10 deduction for vertical skills on beam is ONLY applied to the element that is being used to fulfill a special requirement. It is not applied to every attempted handstand on beam.
2. SR credit will be awarded for Cross and Side split leaps or jumps that are within 20° (Silver-Diamond) or within 45° of the Sapphire Division's specified split angle. A deduction of up to 0.20 for insufficient split will be applied.
3. Restricted elements receive a deduction of 0.50 each and do not receive VP or SR credit.
 - a. Elements are Restricted based upon their Value as listed in the Xcel Code of Points, not based on the quality/amplitude of the performance.
4. More than one Special Requirement may be fulfilled by one Skill/Value Part, unless otherwise specified.

IV. DIFFICULTY RESTRICTIONS

A. Restricted Elements: Elements are Restricted based upon their Value as listed in the Xcel Code of Points not based on the quality/amplitude of the performance.

B. If a restricted element is performed: (All Divisions)

1. Deduct 0.50 from SV
2. Do not award Value Part credit
3. The element cannot be used to fulfill Special Requirements
 - a. If a restricted element is competed as the dismount, also deduct 0.30 for No Dismount
4. All appropriate execution and amplitude deductions would be applied to all elements, whether or not they receive Value Part credit.

DIFFICULTY RESTRICTIONS BY DIVISION

Sapphire	- Only "A", "B", "C", and "D" VP elements are allowed. • "E" VP elements are <u>NOT</u> allowed.

V. ROUTINE EXAMPLES

The following provides sample beam routines for each Division. The Value part (VP) and Special Requirement (SR) is provided for each routine element as applicable. **Refer to Balance Beam - 23 for Sapphire routine examples.**

- In some instances, there are multiple elements within the routine which may fulfill one special requirement. The first element to fulfill the special requirement is noted with the special requirement.
- *Other Mounts: Any mount not listed in the Code is considered an "A"
- Elements with a "+" indicates a connection/series.
- Split angle: For leaps and jumps with a split angle the element number is listed and noted that it is considered an "A" VP for that level. – See *Recognition of Value Parts – Leaps and Jumps*, and *Balance Beam Elements -Group 2 – Leaps, jumps, and hops (limited by division)*.

E. Considerations for awarding Value Part credit when a Fall occurs:

1. When the gymnast completes an element by landing, making contact with the bottom of the feet / foot on the top of the beam, but then falls:
 - a. Value Part credit is awarded.
 - b. Special Requirements are fulfilled, if applicable.
 - c. If the fall occurs on the second element in an Acro or Dance Series, the Special Requirement is fulfilled.
 - d. Deduct for execution and amplitude errors, in addition to the 0.50 deduction for the fall, but not the balance errors which resulted in the fall.
2. If the gymnast does not land or make contact with the bottom of the feet / foot on the top of the beam at all:
 - a. Value Part credit is not awarded.
 - b. Special Requirement credit is not awarded.
 - c. If the fall occurs on the second element in an Acro or Dance Series, the Special Requirement is not fulfilled.
 - d. Deductions for execution and amplitude errors are taken in addition to the 0.50 deduction for the fall.
 - e. Exception to a, b, and c above are mounts that achieve vertical and a press handstand to vertical within the routine.
3. If the gymnast fails to land on the bottom of the feet / foot first on the Dismount:
 - a. Value Part credit is not awarded.
 - b. Dismount Special Requirement credit is not awarded.
 - c. ~~If Salto action was initiated, do not deduct 0.30 for No Dismount from the Start Value.~~
 - d. ~~If No Salto action was initiated, deduct 0.30 for No Dismount from Start Value.~~
 - e. Deductions for execution and amplitude errors are taken, in addition to the 0.50 deduction for the fall.

F. Required Technique for the Recognition of Value Parts

1. Leg positions, posture / body position, and/or amplitude requirements as indicated in the Xcel Code of Points / Xcel Updates must be fulfilled in order to award the Value Part as listed.
2. In some cases, appropriate execution and amplitude deductions would be taken rather than recognizing it as a different element.
3. Turns of 360° or more on one(1) foot and leaps / jumps / hops with Turns of 360° or more:
 - a. Missing degree of turn:

INCOMPLETE TURN - TURNS OF 360° OR MORE		
Missing Degree of Turn	Deduction	VP Credit
If missing 1° to 44° of the turn	Deduct 0.05 – 0.10	Award VP
If missing 45° to 89° of the turn	Deduct 0.15 – 0.20	Award VP credit
If missing 90° or more of the turn		Award VP credit for the element performed

- b. Deductions for balance, execution and amplitude errors are also applied.
- c. Clarification regarding completion of turns: Once the heel drops onto the beam during a turn, it is considered complete. Appropriate Value Part credit is awarded for the degree of turn completed prior to the heel drop.
4. **Turns of less than 360° on one (1) or two (2) feet and Jumps/Leaps/Hops with less than 360° Turn**
 - a. Jumps, leaps, and hops that have values based upon less than a 360° Turn (example, tuck jump ¾), the gymnast must finish a minimum of 1° past the halfway mark between the two Value Parts.
 - 1) Examples:
 - A ½ turn on one or two feet must finish at a minimum of 91° to receive VP and SR credit.
 - 2) Since there is a Value Part listed for the tuck jump ½, ¾, and 1/1 on Beam, the degree of Turn completion, upon landing determines the value awarded.
 - If the Turn is completed to within 44° or less of the designated degree of turn, it is awarded the higher Value Part.
 - (i) In order to receive the higher value, the turn must be finished closer to the higher degree of turn.
 - b. Execution deductions for incomplete turn are applied.
 5. **Holds**
 - a. "A" VP Handstands and Headstands do not require a hold for any Division. Any "B" VP or higher handstand requires a 2-second hold if noted within the Table of Elements.
 - b. If an element requiring a hold is not held for 2 seconds, award the value of the root element.

Xcel Code of Points
BALANCE BEAM

- 1) Example: #1.311 Press to Side Handstand – Lower to Planche.
 • If the Planche position is not held for 2 seconds, award "B" VP credit for the Press Handstand.
- c. Exception: #5.003 Bridge from laying position - A bridge from a lying position requires only a one second hold.
6. **Leaps and Jumps**
- a. For VP and SR credit each Division has a specific required minimum Degree of Split for leaps and jumps with a cross or side split. This split angle is specified in the Division's dance SR (SR #2) and listed in Group 2 Elements. When the front leg on a leap is in the stag position it cannot be used for the split SR. Front leg must be extended in the split position.
- b. **Deficiency of required split angle:**
- 1) **Silver-Diamond:** Deficiency of up to 20° from the Division-specific required Split is allowed to still receive VP and SR credit but a deduction of up to 0.20 for insufficient split is applied.
 - 2) **Sapphire:** Deficiency of up to 45° from the Division-specific required Split is allowed to still receive both VP and SR credit but a deduction of up to 0.20 for insufficient split is applied. This deduction may be applied for any leap/jump requiring 180° split, whether the skill is used to meet a Special Requirement or not.
 - i. 160 - 179° (Missing 1-20° of split) - Deduct 0.05-0.10
 - ii. 135-159° (Missing 21-45° of split) -Deduct 0.15-0.20
- c. Lower VP or NO VP credit (as applicable) would be given for the element if the Split is more than 20° (Silver-Diamond) or 45° (Sapphire) from the required split angle in the Division. Award an "A" VP for a Stretched Jump. Apply appropriate deduction for the VP performed.
- d. To receive "B", "C" or "D" Value Part as listed in the Xcel Code of Points, a Leap or Jump requiring a 180° cross or side split must show a minimum of 135° split.
- 1) A split below 135° and within 20° (Silver-Diamond) of the SR requirement for the Division will receive an "A" Value Part.
 - 2) If the Division split angle is not met, award VP or No VP for the skill actually performed.
 - 3) For "B" leaps/jumps and higher: Once the athlete achieves a minimum of 135° AND her division requirement, she receives the appropriate Value Part with no further Insufficient Split deduction (Excluding Bronze which receive "A" VP for certain splits up to 180°).
- e. Examples:
- 1) Split Jump in the Silver Division the split requirement is 90°
 - If the gymnast has less than 70° leg separation, the Split Jump will be considered a Stretch Jump "A" Value Part credit and will not receive Special Requirement credit for a Split Jump.
 - 2) Split Leap in the Platinum Division the split requirement is 120°
 - If the gymnast has between 100° - 119° leg separation, the split leap will receive VP credit and will fulfill the split angle portion of the Special Requirement credit with an up to 0.20 deduction.
 - 3) Cross Straddle Jump (#2.202) in the Platinum Division achieves less than 135° Split, "B" Value Part is not awarded.
 - If the split angle is within the 20° of the Division's Split angle requirement of 120°, award an "A" VP credit and SR credit for the straddle jump.
 - If the split angle is less than 100°, award an "A" VP for a Stretched Jump, do not award SR.

7. **Flight Elements**

- a. A flight element that fails to show flight (a moment when both the hands and feet are free of the beam) is awarded Value Part credit for the actual element performed.
1) Example: Flic-flac performed with no flight is recognized as a back walkover and awarded "A" Value Part.

8. **Salto Dismounts**

- a. Twisting Saltos (Incomplete long axis (LA) turn / twist):

INCOMPLETE LA TURN - TWISTING SALTO DISMOUNTS		
Missing Degree of Twist	Deduction	VP Credit
If missing 1° to 44° of the twist	Deduct 0.05 – 0.10	Award VP credit
If missing 45° to 89° of the twist	Deduct 0.15 – 0.20	Award VP credit
If missing 90° or more of the twist		Award VP credit for the element performed

- b. Example:

- 1) Gymnast attempts a 1½ twist dismount ("C") and is missing 90° of the twist.
• Award "B" Value Part credit for a full twist.

- Deductions for any balance, execution and amplitude errors are also applied.
c. Clarification regarding the completion of Twists: The placement of the front foot upon landing is decisive in determining the amount of twist completed for the awarding of Value Part credit.

- d. Incomplete Breadth Axis (BA turn) Salto

- 1) Any Salto Dismount that does not land with the bottom of the feet first does not receive VP or SR credit.
• **Do not deduct 0.30 for No Dismount from the Start Value, unless no salto-action was initiated.**
• If the gymnast lands on the feet and hands or the feet and buttocks simultaneously, then give the benefit of the doubt to the gymnast and award Value Part credit.

G. **Specific Element Technique Clarifications**

1. Elements must "achieve or pass through inverted vertical" for SR #3 (Gold, Platinum, **and** Diamond, **and** Sapphire)

- a. This element need only reach/achieve vertical (hips over shoulders) as in a handstand or headstand **in an extended body position from shoulders to hips.**
b. This element does not need to be held.
c. A partial handstand will not fulfill SR because it does not reach vertical.
d. An element used to fulfill this SR may also "pass through" vertical as in a back walkover or cartwheel.
e. Leg position is optional (E.g. split, straddle, stag, or double-stag, etc.).
f. The skill used to "achieve or pass through vertical" must be an element in the Xcel Code of Points.

2. **Any Vertical Handstand:**

- a. The body must be within 10° of vertical, with hips over the shoulders in a balanced position to be recognized as a Vertical Handstand.
1) Handstands that are within 10° of Vertical will receive SR credit and a 0.10 deduction applied for amplitude.
2) The legs may be together or in a split, straddle, stag, or double-stag position.
3) "A" VP Handstands do not require a hold for any Division. Any "B" VP or higher handstand requires a 2-second hold if noted within the Table of Elements.
4) If applicable, recognize the actual VP performed (i.e., Partial Handstand)
b. A press handstand and handstand elements with turn performed within the exercise also do not require 2-second hold to receive VP credit.
c. If the gymnast attains vertical in a mount including a vertical handstand and falls off without touching a foot/body part to the top of the beam, VP credit is still awarded.
5) Press handstand to vertical within the exercise that falls off without touching a foot/body part to the top of the beam will also receive VP credit.
d. Any handstand within the exercise can be used as the first or second element in an Acro Series for all Divisions.
e. Handstands as a Mount may not be used as the first element of an Acro Series.
f. Partial handstands must meet requirements as stated in the Table of Elements.

3. **#2.110 Tuck Jump ("A")**
 - a. Both knees should be at horizontal or above, with a 90° angle at the hips and knees.
 - b. If the knees are lower than horizontal and/or there is greater than 90° angle at the knees, deduct up to 0.20 (up to 0.10 for each error).
 - c. If there is a greater than 135° angle at the hips and greater than 90° at the knee, then award credit for the actual VP performed. Consider it an "A" Stretch Jump with abstract leg position.
4. **#2.111 Wolf Hop ("A") or Wolf Jump ("A")**
 - a. There is no specific angle of closure required. The criteria for VP consideration is that both the extended leg and the thigh of the bent leg are at or above horizontal and the knees are together.
 - b. If the extended leg or the thigh of the bent leg is below horizontal, deduct up to 0.10 for each error.
 - c. If there is a greater than 135° angle at the hips and greater than 90° at the knee, then award credit for the actual VP performed; consider it an "A" Stretch jump with abstract leg position.
 - d. The Wolf Jump must have a 2-foot take-off but may land on either 1 foot or 2 feet.
 - e. A forward lean of the body is acceptable during the jump.
5. **Split Jump (#2.201) vs. Sissonne (#2.107)**
 - a. Cross Split Jump has a 2-foot take-off and landing, while the Sissonne has a 2-foot take-off and a 1-foot landing.
 - b. Cross Split Jump shows the required split (for the Division) with legs even in the split, parallel to the beam.
 - c. The Sissonne also must show the required split of the legs (for the Division); however, the legs are in a diagonal position with the front leg forward downward at a minimum of 45° from the beam and the back leg backward-upward.
 - 1) The front leg must be a minimum of 45° from the beam; if not, deduct up to 0.10 for insufficient amplitude of the front leg.
6. **#2.202 / #2.302 Straddle Jump or side-Split Jump, also with ¼ (90°) turn**
 - a. Straddle Jump or Side-Split Jump in cross position is awarded "B" Value Part credit (#2.202)
 - 1) Exception: Bronze Division receives "A" Value Part credit.
 - 2) From cross stand, a Straddle Jump or side-Split Jump that shows the straddle position while facing the end of beam and then ¼ turns, closing the legs to finish in a side stand, facing sideward is valued at "B". (#2.202)
 - 3) From cross stand, a Straddle Jump or Side-Split Jump that makes a ¼ turn to finish in a straddle pike or side-split position facing sideward is valued "C". (#2.302).
 - b. Straddle Jump or side-Split Jump in side position is awarded "C" Value Part credit (#2.302).
 - 1) From side position, a Straddle Jump or side-Split Jump that shows the straddle position while facing sideward, then ¼ turns, closing the legs Straddle Jump or Side-Split Jump is valued at a "C" (2.302)
 - 2) From side position, a Straddle jump or side-Split Jump that makes a ¼ turn to show a straddle or side-split position while facing the end of beam is valued at "B" (#2.202).
7. **#2.206 Pike Jump in Cross (B) or #2.306 Pike Jump in Side position ("C")**
 - a. In order to receive "B" or "C" VP credit, the only specific requirement is a minimum of 90° closure. The legs are not required to be at horizontal; however, deductions for lack of height (amplitude) of the jump may be applied.
8. **#2.305 Split Leap forward with leg change (Switch-Leg Leap) ("C")**
 - a. First leg should swing forward to a minimum of 45° prior to swinging backward to the required degree of split.
 - 1) If the first leg does not reach 45°, award "C" VP credit and deduct up to 0.10 for insufficient height of leg swing.
 - 2) If there is insufficient split after the leg change, apply deductions for insufficient split. **Split less than 135° = Award "A" VP credit.**
 - 3) If the gymnast performs a Stag-Switch Leg Leap – stag indicates that the first (swing) leg is bent a minimum of 90° with no extension of the leg prior to the leg switch – award "A" VP credit.
9. **#3.206 / #3.306 / #3.406 Turns in tuck stand**
 - a. Turn is completed when the support foot and hips have reached 360° rotation and the free leg touches the beam.
 - b. If the foot of the free leg lands on the beam prior to the full rotation of the support foot and hips, the turn is considered as completed when the free foot touches the beam.
 - c. Deduct accordingly to the degree of rotation of the support foot and hips, at the time when free leg touches the beam.
10. **#3.303 1/1 (360°) Turn with heel of free leg forward At or Above Horizontal throughout the Turn ("C")**
 - a. The gymnast must have time (up to 45° - 1/8th of the turn) to quickly lift the leg into position without deduction. The free leg may be bent or extended, but the entire leg must be at a minimum of horizontal to receive "C" Value Part credit.
 - b. Once the minimum of horizontal position of the free leg is established, it must be maintained throughout the turn in order to receive Value Part credit as listed.
 - c. The free leg may not be supported with the hand in order to maintain the minimum of horizontal position. See element #3.209 and 3.309 for a variation of the full turn holding the leg with the hand.

Xcel Code of Points
BALANCE BEAM

- d. If the correct leg position is missing for more than 45° of the turn or is not maintained throughout the remaining 7/8th (315°) of the turn, recognize it as another element, dependent upon the height of the leg (#3.203) "B" or (#3.101) "A" Value Part credit.
- 11. **#5.306 Reverse Planche ("C")**
 - a. Legs must be in the same plane, either together or straddled.
 - b. A handstand with a split position used for counterbalance or any other handstand with overarch and legs separated receives "B" Value Part credit (#5.206)
- 12. **#7.310 Flic-Flac with ¼ (90°) turn to Side Handstand ("C")**
 - a. Must show flight to the handstand position, with the body stretched in vertical, leg position optional. 2-second hold is not required.
 - b. If there is insufficient flight, recognize the element as a back walkover with turn and award appropriate Value Part credit.
- 13. **#7.312 Tucked Chen Flic ("C")**
 - a. Must show a 90° angle in both the hips and the knees; then open the legs and body to a stretched position prior to the swing down.
- 14. **Beam Dismounts #9.209, #9.309 – Gainer Back Saltos off the end of the Beam**
 - a. The required technique is a take-off from one foot, facing outward off the end of the beam, with the salto performed similar to a reverse dive. The salto rotates backward toward the end of the beam (not along the side of the beam). If there is a directional error, an up to 0.30 deduction is applied.
- 15. **Non-flight walkovers and walkover-type elements**
 - a. All walkovers forward or backward and walkover-type elements must demonstrate the split angle corresponding to the Division's degree of split requirement (on that that event) at some point during the execution of the element.
 - 1) Deduct up to 0.20 for Insufficient split.
- 16. **#5.001 From lunge or stand lever to touch beam (Bronze only)**
 - a. Back foot need not return to the beam to receive value part credit.
 - b. The torso and back leg tilt, forming a straight line from fingertips to toes.
 - c. Body shape/execution deductions may apply. The expectation is a straight body line—no bent knee, no pike at hips.
 - d. May not be performed from a squat.

II. CLARIFICATIONS REGARDING SERIES

- A. **Continuous Connection Between Elements:** In an Acrobatic, Dance Series, or Mixed Series, the connection between the elements must be continuous. The landing leg or the free leg of the first element must be the take-off leg for the next element. If both feet land at the same time, the next element must take off from two feet.
 - 1. **Broken Acro Series:**
 - a. **Backward Acro Series and Sideward to Backward Acro series with one (1) or more Flight elements** is considered broken whenever there is a delay in the immediate take-off of the second element. Deduct 0.50 for missing the SR, if applicable. This delay could be caused by:
 - 1) Arms moving to thighs or further back after the landing of the first element in the connection.
 - 2) If the second element in the connection is a gainer flic-flac or gainer back layout, the arms are allowed to continue circling forward-upward and backward-downward without automatically breaking the connection. The circling action is an inherent arm pattern for the gainer type elements.
 - 3) A cautious slow-moving attempt to connect one or more backward flight elements, or a sideward element with or without flight to a backward flight element. In this case, the Acro Series would be considered broken. A rhythm / tempo deduction is not applied.
 - 4) Examples of series that fall under this series connection principle of either connected or not connected:
 - Back walkover to Flic-flac
 - Flic-flac to Back Walkover
 - Cartwheel to flic-flac
 - Round-off to Flic-flac
 - Side Aerial to Flic-flac
 - Flic-flac to Flic-flac
 - B. **Non-Flight Acro Series (any direction), Acro Flight Series with ONLY Forward and/or Sideward Elements (minimum of one (1) flight), and Counter Acro Flight Series (minimum of one (1) flight):**
 - 1. If there is a lack of tempo / poor rhythm between the elements performed in a Series, apply up to 0.20 for the lack of tempo between elements.
 - a. This refers to a continuous, but slow connection in line with the beam.
 - 2. Examples of series that fall under this series connection principle of using a tempo deduction for a continuous, but slow connection:
 - a. Non-flight: Back Walkover-Back Walkover, Cartwheel step through - Cartwheel, Front Walkover - Cartwheel
 - b. Only Forward and/or Sideward (minimum One (1) flight): Front Handspring - Front Walkover, Front Walkover-Dive Cartwheel, Front Aerial-Cartwheel
 - c. Counter (minimum One (1) flight): Front Walkover - Flic-flac, Front Handspring - Back Tuck Salto, Flic-flac step-out step through - Cartwheel or Round- off, Front Tuck Salto - Flic-flac.

Xcel Code of Points
BALANCE BEAM

C. Dance or Mixed Series:

1. Lack of tempo / poor rhythm between the elements performed in a dance or mixed Series; apply up to 0.20 deduction. This refers to continuous, but slow connection.
2. When evaluating the continuity of a dance connection or a mixed connection of dance to acro, the height of the free leg at the finish of the first element (such as a cat leap or hitch kick) will not be the sole cause for breaking the dance or mixed series; however, if the free leg position drops and lifts again or if the trunk stops forward movement, the series would be considered broken.
3. If the body continues its movement, an arm circle does not necessarily break the connection.

D. All Series are considered broken if any of the following occurs:

1. A stop between the elements.
2. Loss of balance
3. Any deviation of body movement which is NOT in line with the beam.
4. Repositioning of a support leg.
5. Extra step, hop / jump between the elements.
6. If the gymnast lands the first element in plié on two feet, then completely straightens her legs, and plié again to initiate the jump into the next element (the straightening of the legs will break the Series).
7. Performing a kick above 45° leading into the second element will break the series.
 - a. Example: When a cartwheel lands on one leg and the free leg lifts above 45° before stepping into the second cartwheel, the series is broken.

Note: In any type of Series in which the two elements are exactly the same and the connection is broken, the second element will not receive VP credit.

E. Some Acro Elements are Inherently "Non-Connectable"

1. The following is an example of an Acro Series that is considered non-connectable, regardless of how quickly the elements are performed:
2. Example: Back walkover (or flic-flac step-out) to a lunge, then round-off (or cartwheel)
 - a. In this example, the first element lands in a lunge on two feet. It cannot be connected to the 2nd forward element for Acro Series credit.
 - b. The only way these two elements could legitimately connect is by landing the first element on one leg and stepping through with the second leg into the round-off (or cartwheel).
 - 1) Performing a kick above 45° leading into the second element will break the Series.

F. Repetition of a Failed Series:

1. Examples:
 - a. Gymnast performs a Flic-flac step-out and stops (or falls), then does a series of two flic-flac step-outs. The Acro Series SR is not fulfilled because the third flic-flac does not receive VP credit.
 - b. At Platinum and Diamond: Gymnast attempts two back walkovers, but the second back walkover never lands on the beam (no VP credit awarded) (A + "0").
 - 1) If the gymnast then kicks up to a handstand, reaching vertical, then steps down to a back walkover (A + A), the series part of the Acro SR has been met.
 - 2) Any handstand (no hold required) that reaches vertical will receive VP and SR credit and may be used as either the 1st or 2nd skill in the acro series (not if it is the 3rd time performed).

III. APPARATUS SPECIFICATIONS

Refer to the current USA Gymnastics Women's Rules and Policies book. Requirements are subject to change every competitive year, beginning August 1.

A. Manufactured Beams:

1. Manufactured Padded Beams required at all USA Gymnastics sanctioned competitions.
2. See Women's Rules and Policies for Height requirement.
 - a. Deduct 0.30 for competing on apparatus using incorrect specifications.
 - b. Chief Judge must take deduction from Average Score before next Gymnast begins.

B. Balance Beam must be placed on floor / stable surface.

3. If the gymnast leaves the apparatus (Terminates the Exercise early, intentionally or due to a Fall):
 - a. Deduct 0.50 from the Start Value for missing the Dismount Special Requirement.
 - b. Deduct 0.30 from the Start Value for No Dismount.
 - c. Deduct 0.50 for the Fall from the apparatus, if applicable.
 - d. Courtesy Score of 4.00 may be awarded for an extremely Short routine due to injury or unusual circumstances. No routine will be awarded less than 4.00. Common sense should prevail.
- E. **If after a fall off the beam, the gymnast attempts to re-mount the beam and falls again** (prior to the timing of the routine resuming), the deduction will be an additional 0.50 for the second fall.
- F. **Warm-up during a fall:** If, after a fall, the gymnast performs an element on the mat prior to re-mounting, the Chief Judge takes a deduction of 0.20 from the Average Score for additional warm-up. No warning is required.

VII. SPOTTING REGULATIONS

- A. **If the coach assists/spots the gymnast during an element:**
 1. Each judge deducts 0.50 for the spot.
 2. If the gymnast falls after the spot, an additional 0.50 deduction is taken for the fall.
 3. No VP credit awarded.
 4. No SR credit awarded.
 5. No Bonus awarded (Sapphire).
 6. If the spot occurs on the dismount element, even though it receives no VP credit, do not deduct 0.30 from the Start Value for no dismount.
- B. **If the coach spots the gymnast upon landing of the dismount:**
 1. Each judge deducts 0.50 for the spot.
 2. If the gymnast falls after the spot, an additional 0.50 is taken for the fall.
 3. VP credit is awarded.
 4. SR credit is awarded.
 5. No Bonus awarded (Sapphire).
- C. **If the coach inadvertently touches the gymnast without assisting:**
 1. Each judge deducts 0.50 for the spot.
 2. VP credit is awarded.
 3. SR credit is awarded.
 4. No Bonus awarded (Sapphire).
- D. **If the coach catches a falling gymnast,** do not deduct for the spot; deduct 0.50 for the fall ONLY.
- E. **There is no penalty if the gymnast inadvertently touches the coach.**
- F. **When a raised surface is necessary for spotting release moves:** It is recommended that a spotting block or folded mat be used; however, there is no penalty for the coach standing on the mounting apparatus, provided that the mounting apparatus (or spotting device) is removed immediately after the element is performed.
 1. If the spotting device is not removed, the Chief Judge takes a deduction of 0.30 from the Average Score.
 2. The coach may not use chairs or other items that are not produced by a gymnastics supply company to stand on for spotting purposes.
 - a. A warning should be given. If the coach continues to use an inappropriate item to stand on, then a 0.30 deduction for use of unauthorized equipment should be taken.
- G. **The Coach may stand by the Beam during the entire exercise without penalty.**

VIII. MOUNT AND DISMOUNT REGULATIONS

- A. **Mounts**
 1. See Beam Chapter 3, III. Apparatus Specifications for specific information on allowable matting for mounts.
 - a. The gymnast may use a springboard to mount or may mount from the mat(s) as described in the Apparatus Specifications section.
 2. The mounting apparatus or spotting block / mat must be removed as soon as possible after the gymnast has mounted. If not removed, the Chief Judge takes a 0.30 deduction from the Average Score.

Xcel Code of Points
BALANCE BEAM

3. Mounts that are preceded by one (1) element prior to take-off from the mounting apparatus will be allowed. Only the movement done after the feet leave the mounting apparatus will be evaluated.
4. Mount Attempts
 - a. The gymnast may have two (2) Attempts to mount the Beam without penalty, provided that she has not touched the mounting apparatus and/or Beam or run underneath the Beam on either attempt. Such an Attempt without mounting is considered a "Balk."
 - b. If the gymnast balks two times, she may take one more approach; however, on the third attempt, each judge takes a 0.50 deduction.
 - c. A Fourth Approach is not permitted

Examples		
	Mount Attempts	Deduction
a.	Attempt #1: Runs, balks, no mount performed Attempt #2: Run, mount performed	No Deduction
b.	Attempt #1: Run, balk, no mount performed Attempt #2: Run, balk, no mount performed Attempt #3: Runs, performs a mount	Each judge deducts <u>0.50</u> for third approach.
c.	Attempt #1: Run, balk, no mount performed Attempt #2: Run, balk, no mount performed Attempt #3: Run, balk, no mount performed A fourth attempt is not allowed.	Each judge deducts <u>0.50</u> for third approach.

- d. If the gymnast runs and touches the mounting apparatus and/or Beam or runs underneath the Beam without mounting, a 0.50 deduction is applied (considered a Fall).
- e. If the gymnast is attempting a Round-off entry mount, and performs only the Round-off, she may repeat the mount and receive appropriate VP credit. A 0.50 deduction for a Fall will be applied, since she made contact with the board, which is considered part of the apparatus.

B. Dismounts

1. All elements, including the Dismount, performed after the final time signal will be evaluated.
2. If a gymnast performs a Dismount that does not meet her Division criteria from the Xcel Code of Points:
 - a. Deduct 0.50 for missing the Dismount Special Requirement.
 - b. Do not deduct 0.30 for No Dismount.
3. If a gymnast performs a Dismount of NO VALUE – one that is not listed in the Xcel Code of Points or performs a Restricted element for the Division:
 - a. Deduct 0.50 for missing the Dismount Special Requirement.
 - b. Deduct 0.30 from the Start Value for No Dismount.
 - c. Deduct an additional 0.50 from the Start Value if the Dismount performed is a Restricted element for the Division.
4. Falls on a Salto Dismount (Silver/Gold/Platinum/Diamond/Sapphire Divisions):
 - a. If the gymnast never initiates the Salto action, and falls without landing on the bottom of the feet first,
 - 1) Value Part credit is not awarded for the Dismount.
 - 2) Deduct from the Start Value for any missing difficulty requirements, if appropriate.
 - 3) Deduct 0.50 from the Start Value for missing the Dismount Special Requirement.
 - 4) Deduct 0.30 from the Start Value for No Dismount.
 - 5) Deduct 0.50 for the Fall.
 - 6) Deduct for any other execution / amplitude errors.

BALANCE BEAM ELEMENTS - 6

Revised August 2023

1. Saito Element: Fail to land on any part of bottom of feet first when performing Saito element:
 - a. No VP credit awarded.
 - b. No SR awarded.
 - c. Deduct 0.50 for fall.
 - d. Deduct for execution and amplitude errors in addition to the fall.

E. Required Technique for the Recognition of Value Parts

1. Leg positions, posture / body position, and/or amplitude requirements as indicated in the Xcel Code of Points must be fulfilled in order to award the Value Part as listed.
2. Required technique must be fulfilled in order to award the VP as listed.
3. In some cases, appropriate execution and amplitude deductions would be taken rather than recognizing it as a different element.
4. Turns of 360° or more on one(1) foot and leaps / jumps / hops with Turns of 360° or more:
 - a. If missing:

INCOMPLETE TURN - TURNS OF 360° OR MORE		
Missing Degree of Turn	Deduction	VP Credit
If missing 1° to 44° of the turn	Deduct 0.05 – 0.10	Award VP
If missing 45° to 89° of the turn	Deduct 0.15 – 0.20	Award VP credit
If missing 90° or more of the turn		Award VP credit for the element performed

- b. Deductions for balance, execution and amplitude errors are also applied.
- c. Clarification regarding completion of turns:
 - 1) Once the heel drops onto the floor during a turn, it is considered complete.
 - 2) Appropriate Value Part credit is awarded for the degree of turn completed prior to the heel drop.
5. **Jumps / Leaps / Hops with ½ (180°) Turn and ½ (180°) Turns on one (1) foot:**
 - a. Jumps / Leaps / Hops: values based upon completion of the ½ (180°) Turn. Must finish minimum of 1° past half-way mark between the two (2) VP to receive the higher value. Wolf Jump = "A" and Wolf Jump ½ = "B"
 - 1) Degree of Turn completion determines value awarded.
 - 2) Evaluate how much of Turn was completed to determine value to award.
 - 3) Turn completed to within 89° or less of designated Degree of Turn, award higher VP.
 - 4) Turn must finish closer to higher Degree of Turn.
 - 5) Execution deductions applied for Incomplete Turn.
 - b. ½ Turns on One (1) foot must finish at minimum of 91°
 - 6) To receive VP credit and SR credit.
 - 7) Use deductions listed in Chapter 3 for Full Turns.
6. **Split Leaps and Jumps**
 - a. Each Division has a specific required minimum Degree of Split for Leaps and Jumps with a cross or side split. This split angle is specified in the Division's Dance SR (SR #2). **When the front leg on a leap is in the stag position it cannot be used for the split SR. Front leg must be extended in the split position.**
 - b. Deficiency of up to 20° (Bronze-Diamond) or 45° (Sapphire) from the Division-specific required Split is allowed to still receive VP and SR credit but a deduction of up to 0.20 for insufficient split will be applied.
 - 1) Example: Split Leap: Platinum Division, Split requirement 155° 450°.
 - A Split at 135° leg separation, Split Leap (#1.101) will receive "A" VP credit and Special Requirement credit with "up to 0.20" deduction.

**Xcel Code of Points
FLOOR EXERCISE**

- 2) **Sapphire:** This deduction may be applied for any leap/jump requiring 180° split, whether the skill is used to meet a Special Requirement or not.
 - 160 - 179° (Missing 1-20° of split) - Deduct 0.05-0.10
 - 135 - 159° (Missing 21-45° of split) - Deduct 0.15-0.20
- c. Lower VP or NO VP credit (as applicable) would be given for the element if the Split is more than 20° (**Bronze-Diamond**) or 45° (**Sapphire**) from the required split angle in the Division. Example:
 - 1) Straddle Jump 1/1 Turn: Platinum Division, Split at 120°.
 - "A" VP credit for Jump 1/1 Turn.
- d. To receive "B", "C" or "D" Value Part as listed in the Xcel Code of Points, a Leap or Jump requiring a 180° split must show a minimum of 135° split.
 - 1) For "B" leaps/jumps and higher: Once the athlete achieves a minimum of 135° AND her division requirement, she receives the appropriate Value Part with no further Insufficient Split deduction (Excluding Bronze which receive "A" VP for certain splits up to 180°).
- e. Elements are designated as Restricted elements based on their value as listed in the Xcel Code of Points, NOT on the quality/amplitude of the performance.
- f. Examples:
 - 1) NOTE: Where applicable deductions for Insufficient Amplitude (Height) and Execution may be taken, in addition to Insufficient Split deduction.
 - 2) Split Leaps: Platinum Division, Split requirement 155° 150°.
 - 135° - 154° 130° - 149° leg separation, Split Leap will receive "A" VP credit and Special Requirement credit with "up to 0.20" deduction.
 - 3) Straddle Jump 1/1 Turn: Platinum Division, Split at 120°.
 - "A" VP credit for Jump 1/1 Turn.
 - 4) Leg swing Hop with free leg horizontal or above:

 - No "A" Value Part credit awarded if free leg lifted less than 70° from floor.

7. **Flight Elements:**
 - a. Flight element that fails to show Flight (moment when both hands and feet are free of floor), award VP credit for actual element performed.
 - 1) Acro skill / element without Flight, may not fulfill Acro Special Requirement requiring Flight.
 - b. Dive Forward Roll does not fulfill Flight requirement, (due to support on shoulders and back).

**Xcel Code of Points

An Acro Pass is defined as an Approach (usually, but not required, to be initiated by a step, hurdle or run) resulting in the performance of one or more acro elements (with or without hand support). An Acro Pass with two or more elements must be directly connected. An Acro Pass with two or more saltos may be directly or indirectly connected with flight elements with hand-support.

 - a. Stop between elements.
 - b. Loss of Balance, causing a Stop between elements.
 - c. Repositioning of Support Leg.
 - d. Extra Step / Hop / Jump / Pivot of feet between elements.
 - e. Performing a kick between the elements will break the series if the leg swing forward is higher than 45°.
3. Bronze / Silver Divisions:
 - a. Exception: Round-off rebound, Backward Roll is an allowable Acro connection.

B. Dance Element performed within Acro Pass:

1. Will break direct connection.
2. No Special Requirement awarded.
3. Example: Bronze Division: Round-off, Tuck Jump, Backward Roll

D. Dance Passage

1. Elements may be directly or indirectly connected.
2. Indirect connection allows running Steps / Small Hops / Skips / Chassés / Assemblés / Turns on one (1) or two (2) feet between dance elements.

VP and SR credit will be awarded for the cast/clear support angle with a deduction of 0.10 applied for amplitude of casts if:

- Silver - Diamond: 1-10° below the requirement.
- Sapphire: 11-20° below the requirement.

The 0.10 amplitude deduction applies to casts only. It does not apply to the amplitude of circling elements. For those elements use the amplitude deductions applicable for each Division. When an extra cast/swing occurs only apply a 0.30 deduction for extra swing. Do not also apply the additional 0.10 amplitude deduction.

INCOMPLETE TWIST ON DISMOUNT		ANGLE OF BODY AT TURN COMPLETION	
Required end position of turn/twist  If 90° or more are missing - Award VP credit for the element performed as listed in the Xcel Code of Points.		FOR TURNS IN HANDSTAND 180° pirouettes-all techniques 360° or more pirouettes turning on both arms in handstand phase.  FOR TURNS IN AND AFTER HANDSTAND 540° & more pirouettes-all techniques 360° pirouettes turning on one arm after handstand (Healy technique)

0-10° of Vertical - No Deduction 11-20° of Vertical - 0.05 21° or more from vertical - recognize it as the lower valued element Award higher Value Part 20° 10° no ded. 		ALL CIRCLE ELEMENTS EXCEPT CLEAR HIP CIRCLES These deduction apply ONLY to Platinum, Diamond, & Sapphire Divisions. Platinum: "C" Value Parts are restricted in the Platinum Division. The following circles are exceptions and receive "B" VP - Stalder Bkwd to HS & Pike Sole Circle Bkwd to HS (Both without turn). No amplitude deductions are applied from 45° to vertical because gymnasts receive only "B" credit regardless of whether it achieves handstand phase or not. Gold: 0-20° - Restricted skill Award lower Value Part 	
		CLEAR HIP CIRCLES ONLY These deductions apply ONLY to Diamond, & Sapphire Divisions. Gold: NO amplitude deductions for clear hip circles. 0-20° - Restricted skill Platinum: NO amplitude deductions for clear hip circles.
